FEATURES

- Dual-sided - 1,000 grit to quickly sharpen dull knives and 6,000 grit for finishing and polishing edges
- Made from high-quality white corundum
- Silicon anti-slip base
- Angle guide to help control the angle and extra safety
- Suitable for sharpening tool blades and household items such as kitchen knives

DESCRIPTION

This whetstone sharpening stone is dual-sided, with 1,000 grit to quickly sharpen dull knives and 6,000 grit for finishing and polishing edges. It is made from high-quality white corundum. The silicone non-slip base ensures the bamboo board stays in place and keeps the stones sturdy while sharpening. The angle guide helps to control the angle and provides extra safety. It is suitable for sharpening a range of tool blades as well as household items such as kitchen knives and scissors.

CONTENTS

1 x Double Sided Whetstone Sharpening Stone with Non-Slip Base and Angle Guide, 1000/6000 Grit
