Hinged cover with safety device for German socket outlet aluminium Simon 82

REF. **82090-33**

BASIC INFORMATION

DESCRIPTION

In Schuko format, the hinged cover with safety device for the socket-outlet Simon 82 aluminium is one of the most functional parts included in this series. Available in six different finishes, it is suitable for surface and flush mounting. This is a hinged cover (55x55 mm) made of thermoplastic materials that complies with UNE 20315-1: 2009, which allows it to withstand a temperature range of 5º to 40º C and a maximum temperature of -25º to 50º C. Security, functionality and innovative design are its three hallmarks, plus a price that makes it the market leader. But its advantages do not end here. This hinged cover includes engraving of the plug and a soft, dry cloth is sufficient to keep it looking the same as the first day and prevent deterioration over time.
