Set of 2 universal keys for the key mechanisms of the items in series 31 and 75

REF. **75891-39**

BASIC INFORMATION

DESCRIPTION

Pack of 2 universal keys for the key mechanisms of the Simon 31 and 75 series. Among the special control mechanisms of the Simon 75 series are this set of keys for push-button switch / 2-way switch designed to make everyday life much easier and more comfortable. Its small weight and small dimensions make it a practical and functional item suitable for all lifestyles. It is a very resistant product of great durability. The Simon 75 collection is equipped with mechanisms that adapt to any decorative space. In this series, frames in multiple finishes and designs and devices coexist with novel electronic functions aimed at facilitating tasks such as the control and adjustment of lighting or temperature programming. The Simon 75 series is rounded off with articles such as this universal key set, which is so simple but at the same time so useful.

COMPATIBILITY

Simon 28, Simon 31, Simon 75 and Simon 88 mechanisms
