BEST AQUACULTURE PRACTICES CERTIFIED

Best Aquaculture Practices (BAP) is a set of farm-raised seafood certification standards for seafood aquaculture facilities.

BAP standards address environmental and social responsibility, animal welfare, food safety and traceability.

The **BAP** program is organized as a tiered ranking system; companies with **4-STAR** ratings are considered the most strictly compliant.

XT, XW, and **ABCS** shrimp are **4-STAR** rated.

www.gaalliance.org

XT, XW and ABCS shrimp are farm raised in Southeast Asia without the use of antibiotics or hormones and contain no chemical additives.

Shrimp is processed and frozen within 90 minutes of harvest, preserving optimum freshness.

Shrimp counts are sized within 3 grams to ensure uniformity and consistent cooking time.

ABCS cooked shrimp has been cooked in the shell, peeled, and needle deveined. This process seals in the natural flavor of the shrimp and results in a firm, crunchy texture.

Shrimp are packed
Individually Quick Frozen (IQF)
with an accurate drained weight

Pack: 5/2 Lb; 10/1 Lb (Selected sizes for retail)
