Whether you're working or playing, if you want to carry your laptop and other belongings in comfort and keep everything neat and tidy, this back pack was made for you. The padded section in the main compartment offers space for a 14" laptop, and to protect your device from impact damage, this section doesn't extend to the cushioned base of the bag. There are numerous compartments to store your documents, mouse, power bank, etc. The volume of the side pockets can be expanded using the special zips, and the three front patch pockets provide additional storage for items that you might want to access quickly. The main material and lining of the back pack are manufactured in an eco-friendly way from recycled materials. The practical reflective detailing completes the stylish design.
