Logo Lining, fibreproof
100% Polyamide

As light as freshly fallen snow. But much warmer.

The men's down jacket is a classic insulated jacket with an RDS certified down fill.

It's very light, super warm and packs down small.

The Stormlock shell fabric shuts out the cold wind, thereby increasing the insulation performance.

The jacket's stowaway pocket is a very practical feature.

The whole jacket stuffs neatly inside its own pocket, so it takes up very little space in your pack.
