Alarm volume	130 dB
Clip length	23 cm

Product Description

The SHOPWORX Personal Attack Alarm is a compact safety device designed to provide immediate audible alert and personal reassurance in vulnerable situations. Lightweight and easy to carry, it features a powerful 130 dB alarm that is activated by removing the contact pin, helping to deter potential threats and attract attention quickly. The alarm automatically stops once the pin is reinserted, allowing the device to be reset for continued use. A built in torch provides additional visibility in low light environments. With a secure keyring attachment and long clip, the device can be easily fixed to bags, belts, or clothing, ensuring it remains accessible when needed. Suitable for lone workers, students, or anyone seeking an added layer of personal safety.

Key Features and Benefits:

- 130 dB high volume alarm
- Simple pull pin activation
- Built in torch
- Compact and lightweight design
- Keyring attachment and long clip
- Battery powered
- Durable black casing
