Water based dye ink-Pastel b Revision Date: 2024/10/28

# 上海纳诺微新材料科技有限公司

Shanghai NNW New Materials Technology Co., Ltd.

# **Safety Data Sheet**

# Water based dye ink

Version:1.1

Creation Date:2024/10/28 **Revision Date:2024/10/28** 

**Color: Pastel blue** 

**Country of Destination:EU** 

\*Safety Data Sheet (Conforms to Annex II of REACH (1907/2006) - Regulation 2020/878)

### SECTION 1 Identification of the substance/mixture and of the company/undertaking

## 1.1 Product identifier

Product Name	Water based dye ink(Pastel blue)
Synonyms	
CAS NO.	
EC NO.	
UFI Code	_

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses	To write
Uses advised against	_

### 1.3 Details of the supplier of the Safety Data Sheet

Name of the company	Shanghai NNW New Materials Technology Co., Ltd.	
Address of the company	ROOM 402, Buildiing17, Lane 268, Lingxin Road, Changning District Shanghai, CHINA	
Post code	200335	
Telephone number	021-64476059	
Fax number	021-64476096	
Email	sales@nnwchina.com	

## 1.4 Emergency phone number

Emergency phone number	+8613311812200
------------------------	----------------

#### **SECTION 2** Hazards identification

### 2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008	The product is not classified according to the CLP regulation.

## 2.2 Label elements

Hazard pictogram(s)	Not Applicable
Signal word	Not Applicable
Hazard statements	Not Applicable

## 2.3 Precautionary statements

Prevention	Not Applicable
------------	----------------

Continued... Page 1 of 10

NW	Water based dye ink-Pastel blue		Version:1.1	Revision Date: 2024/10/28
	Response	Not Applicable		
	Storage	Not Applicable		
	Disposal	Not Applicable		

### 2.4 Other hazards

None of the ingredients (≥0.1%) is identified as having endocrine disrupting properties according to Regulation (EU) 2017/2100.

## SECTION 3 Composition/information on ingredients

## 3.1 Substance

Not Applicable

## 3.2 Mixtures

Description: Mixture of substances listed.

1.CAS No 2.EC No/List No 3.Index No 4.REACH No	%[weight]	Name	Classification according to regulation (EC)No 1272/2008 [CLP] and amendments	Nanoform Particle Characteristics	SCL/M-Factor/ ATF

## SECTION 4 First aid measures

## 4.1 Description of first aid measures

General advice	Seek medical attention if necessary. Show this Safety Data Sheet (SDS) to the physician present.	
Eye contact	Flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes and continue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist.	
Skin contact	Wash with water. If there are signs of irritation or other symptoms seek medical attention.	
Ingestion	Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.	
Inhalation	Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately.	

## 4.2 Most important symptoms and effects, both acute and delayed

No known symptoms or effects, acute or delayed.

## 4.3 Indication of any immediate medical attention and special treatment needed

No special immediate medical attention or special treatment needed.

## SECTION 5 Firefighting measures

## 5.1 Extinguishing media

Suitable extinguishing media	CO2,powder or water spray.Fight larger fires with water spray or alcohol resistant foam.
Unsuitable extinguishing media	Water with full jet.

Page 2 of 10 Continued...

## 5.2 Special hazards arising from the substrate or mixture

May form irritating fumes in the air under fire.

## 5.3 Advice for firefighters

1	As in any fire, wear self-contained breathing apparatus(MSHA/NIOSH approved or equivalent)and full protective gear.
2	Fight fire from a safe distance, with adequate cover.
3	Prevent fire extinguishing water from contaminating surface water or the ground water system.

### **SECTION 6** Accidental release measures

## 6.1 Personal precautions, protective equipment and emergency procedures

1	Ensure adequate ventilation.
2	Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.
3	Use personal protective equipment. Avoid breathing vapours, mist, gas or dust.

## 6.2 Environmental precautions

1	Do not allow to enter sewers/surface or ground water.
2	Discharge into the environment must be avoided.

## 6.3 Methods and material for containment and cleaning up

1	Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).	
2	Dispose contaminated material as waste according to item 13.	
3	Use respiratory protective device against the effects of fumes/dust/aerosol.	

## 6.4 Reference to other sections

1	See section 7 for information on safe handing.	
2	See section 8 for information on personal protection equipment.	
3	See section 13 for disposal in formation.	

### **SECTION 7** Handling and storage

## 7.1 Precautions for handling

## Protective measure

1	Ensure good ventilation/exhaustion at the workplace.	
2	Keep receptacles tightly sealed.	
3	Keep away from heat and direct sunlight.	
4	Avoid contact with eyes.	
5	Avoid breathing vapour.	

## Information about fire - and explosion protection

Normal measures for preventive fire protection.

## 7.2 Conditions for safe storage, including any incompatibilities

1	Keep containers tightly closed.	
2	Keep containers in a dry,cool and well-ventilated place.	
3	Store away from incompatible materials and food stuff containers.	
4	Store away from strong oxidants and strong acids.	

## 7.3 Specific end use(s)

See section 1.2

on:1.1 Revision Date:2024/10/28

# SECTION 8 Exposure controls/personal protection

## 8.1 Control parameters

Ingredient	DNELs Exposure Pattern Worker	PNECs Compartment

<sup>\*</sup> Values for General Population

## 8.1.1 Occupational Exposure Limits (OEL)

## > Ingredient data

Ingredient	Country	Limit value - Eight hours	Limit value - Short term
	Belgium	$10mg/m^3$	Not data available
	VLEP (France)	$10mg/m^3$	Not data available
	WELs(UK)	$10mg/m^3$	Not data available
Glycerol, mist	Finland	20mg/m³	Not data available
	AGS(Germany)	200mg/m³ <sup>[1]</sup>	400mg/m³ <sup>[1][2]</sup>
	DFG(Germany)	200mg/m³ <sup>11</sup>	400mg/m³ <sup>[1][2]</sup>
	Ireland	10mg/m³	Not data available
	Poland	10mg/m³	Not data available
	Spain	10mg/m³	Not data available
	Switzerland	50mg/m³inhalable aerosol	100mg/m³inhalable aerosol

Remarks: 1. Inhalable fraction 2.15 minutes average value

## Emergency Limits

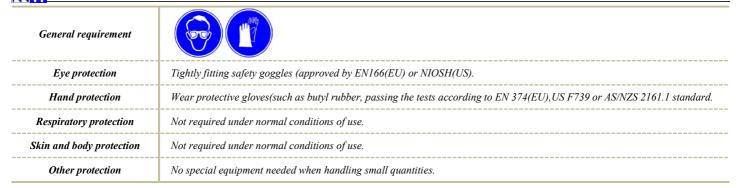

Ingredient	TEEL-1	TEEL-2	TEEL-3
Glycerol	45mg/m³	180mg/m³	1100mg/m³
C.I.Acid Blue 9	$30mg/m^3$	330mg/m³	$2000 mg/m^3$
Polyvinyl pyrrolidone	$51mg/m^3$	560mg/m³	20000mg/m³

## 8.2 Engineering controls

General protective and hygienic measures

The usual precautionary measures are to be adhered to when handling chemicals.

## 8.3 Personal protection equipment

## SECTION 9 Physical and chemical properties

## 9.1 Information on basic physical and chemical properties

Appearance	Pastel blue	1/2	Dynamic	Not determined
Physical state	Liquid	Viscosity	Kinematic:	Not determined
Odour	Odourless	Vapour densi	ty (Air = 1)	Not determined
Odour threshold	Not determined	Density/Relat	ive density	Not determined
pH (as supplied)	Not determined	Decomposition	temperature	Not determined
Melting point/freezing point(°C)	Not determined	Particle	Size	Not determined
Flash point(Closed cup,°C)	Not determined	Vapour pressure (kPa)		Not determined
Flammability	Not flammable liquid	Relative vapor density		Not determined
Evaporation rate	Not determined	Partition coefficient n-octanol/water		Not determined
Upper Explosive Limit (%)	Not determined	Auto-ignition temperature(°C)		Not determined
Lower Explosive Limit (%)	Not determined	Explosive p	roperties	Product does not present anexplosion hazara
Self-igniting	Not determined	Oxidising p	roperties	Not determined
Taste	Not determined	Surface Tension (dyn/cm or mN/m)		Not determined
Volatile Component (%vol)	Not determined	Gas group		Not determined
pH as a solution (1%)	Not determined	VOC g/L		Not determined

## 9.2 Other information

No further relevant information available.

## SECTION 10 Stability and reactivity

# 10.1 Stability and reactivity

Reactivity No further relevant information available.	
Chemical stability Stable under proper operation and storage conditions.	
Possibility of hazardous reactions  No dangerous reactions known.	
Conditions to avoid	No further relevant information available.
Incompatible materials	No further relevant information available.
Hazardous decomposition products	No dangerous decomposition products known.

# SECTION 11 Toxicological information

## 11.1 Information on toxicological effects

Inhaled	The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting. Not normally a hazard due to non-volatile nature of product.
Ingestion	The material has not been classified by EC Directives or other classification systems as "harmful by ingestion". This is because of the lack of corroborating animal or human evidence.

Page 5 of 10 Continued...

MIM	Water based dye ink-Pastel bi

ased dye ink-Pastel blue Version:1.1 Revision Date:2024/10/28

Skin Contact	The material is not thought to produce adverse health effects or skin irritation following contact (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable gloves be used in an occupational setting.
Eye	Although the liquid is not thought to be an irritant (as classified by EC Directives), direct contact with the eye may produce transient discomfort characterised by tearing or conjunctival redness (as with windburn).
Chronic	Long-term exposure to the product is not thought to produce chronic effects adverse to the health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimised as a matter of course.

We don't constitute that	TOXICITY	IRRITATION
Water based dye ink	No data available	No data available
	TOXICITY	IRRITATION
Glycerol	Oral (rat) LD50:> 11500 mg/kg <sup>[1]</sup> Inhalation(rat) LC50: > 5.85mg/L 4h <sup>[1]</sup> Dermal (guinea pig) LD50: 45 ml/kg <sup>[1]</sup>	Skin (rabbit):non-irritating(Draize) Eye (rabbit):non-irritating (Draize)

## 11.2 Carcinogenicity

Component	Cas No.	IARC
Acid Red 18	2611-82-7	Not listed
Glycerol	56-81-5	Not listed
Water	7732-18-5	Not listed
C.I.Acid red 52	3520-42-1	Not listed
Polyvinyl pyrrolidone	9003-39-8	Not listed
Acid yellow 23	1934-21-0	Not listed
C.I.Acid blue 9	2650-18-2	Not listed

## 11.2.1 Endocrine Disruption Properties

None of the ingredients ( $\geq 0.1\%$ ) is considered to have endocrine-disrupting properties with respect to humans, as none of them meet the criteria set out in section A of Regulation (EU) No 2017/2100.

# 11.3 Primary irritant effect

Carcinogenicity	Based on available data, the classification criteria are not met.	
Skin corrosion/irritation	Based on available data, the classification criteria are not met.	
Serious eye damage/irritation	Based on available data, the classification criteria are not met.	
Skin sensitization	Based on available data, the classification criteria are not met.	
Respiratory sensitization	Based on available data, the classification criteria are not met.	
Reproductive toxicity	Based on available data, the classification criteria are not met.	
STOT-single exposure	Based on available data, the classification criteria are not met.	
STOT-repeated exposure	Based on available data, the classification criteria are not met.	

Page 6 of 10 Continued...

Based on available data, the classification criteria are not met.

# 12.2 Persistence and degradability

Component	Cas No.	Persistence (water/soil)
Glycerol	56-81-5	Readily biodegradable in water
Acid red 18	2611-82-7	Not readily biodegradable in water
C.I.Acid red 52	3520-42-1	Not readily biodegradable in water
C.I.Acid Blue 9	2650-18-2	Not ready biodegradable in water
Acid yellow 23	1934-21-0	Not readily biodegradable in water

Page 7 of 10 Continued...

## 12.3 Bioaccumulative potential

Component	Cas No.	Bioaccumulative potential	Remarks
Glycerol	56-81-5	No potential for bioaccumulation	LogKow=-0.244 - 0.046
Acid red 18	2611-82-7	No potential for bioaccumulation	LogKow=-2.267
C.I.Acid red 52	3520-42-1	No data available	LogKow=-2.2
C.I.Acid Blue 9	2650-18-2	Potential for a low bioaccumulation	LogKow=-3
Acid yellow 23	1934-21-0	No potential for bioaccumulation	LogKow=-1.572

## 12.4 Mobility in soil

Component	Cas No.	Soil Organic Carbon-WaterPartitioning Coefficient (Koc)
Glycerol	56-81-5	Koc=1
Acid red 18	2611-82-7	Koc=3.16
C.I.Acid red 52	3520-42-1	No data available
C.I.Acid Blue 9	2650-18-2	No data available
Acid yellow 23	1934-21-0	Koc=0

## 12.5 Results of PBT and vPvB assessment

PBT	Not Applicable
vPvB	Not Applicable

## 12.6 Endocrine Disruption Properties

None of the ingredients ( $\geq 0.1\%$ ) is considered to have endocrine-disrupting properties with respect to non-target organisms, as none of them meet the criteria set out in section B of Regulation (EU) No 2017/2100.

## 12.7 Other adverse effects

No further relevant information available.

### SECTION 13 Disposal considerations

## 13.1 Waste treatment methods

Product / Packaging disposal	Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.  1.Do not allow wash water from cleaning or process equipment to enter drains.  2.It may be necessary to collect all wash water for treatment before disposal.  3.Recycle wherever possible.  4.Consult manufacturer for recycling options or consult local or regional waste management authority for disposal if no suitable treatment or disposal facility can be identified.
Waste treatment options	No further relevant information available.
Sewage disposal options	No further relevant information available.

### **SECTION 14** Transport information

## 14.1 UN-Number

ADR/RID/ADN, IMDG, IATA	Not Applicable	
14.2 UN proper shipping name		
ADR/RID/ADN, IMDG	Not Applicable	
IATA	Not Applicable	

## 14.3 Transport hazard class(es)

ADR/RID/ADN, IMDG, IATA	Not Applicable
Class	Not Applicable

Revision Date	2024/10/28
Reason for revision	

### 16.2 Abbreviations and acronyms

SCL: Specific Concentration limits

ATE: Acute Toxicity Estimates

Cas: Chemical Abstracts Service

PC —TWA: Permissible Concentration-Time Weighted Average

PC -STEL: Permissible Concentration-Short Term Exposure Limit

IARC: International Agency for Research on Cancer

STEL: Short Term Exposure Limit

TEEL: Temporary Emergency Exposure Limit

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)

IMDG: International Maritime Code for Dangerous Goods

IATA: International Air Transport Association

GHS: Globally Harmonised System of Classification and Labelling of Chemicals EINECS: European Inventory of Existing Commercial Chemical Substances

NOEC: No Observed Effect Concentration

BCF: BioConcentration Factors

ELINCS: European List of Notified Chemical Substances

DNEL: Derived No-Effect Level (REACH)

PNEC: Predicted No-Effect Concentration (REACH)

LC50: Lethal concentration, 50 percent

LD50: Lethal dose, 50 percent

PBT: Persistent, Bioaccumulative and Toxic vPvB: very Persistent and very Bioaccumulative

## 16.3 Further information

The contents and format of this SDS are in accordance with Regulation (EC) No 1907/2006, its amendment Regulation (EU) No 2020/878 and (EC) No 1272/2008.

## **DISCLAIMER OF LIABILITY:**

This Safety Data Sheet (SDS) was prepared according to REACH Regulation The data included was derived from international authoritative data base and provided by the enterprise. Other information was based on the present state of our knowledge. We try to ensure the correctness of all information. However, due to the diversity of information sources and the limitations of our knowledge, this document is only for user's reference. Users should make their independent judgment of suitability of this information for their particular purposes. We do not assume responsibility for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product.

NW	Water based dye ink-Pastel green		Version:1.1	Revision Date: 2024/10/28
	Response	Not Applicable		
	Storage	Not Applicable		
	Disposal	Not Applicable		

### 2.4 Other hazards

None of the ingredients (≥0.1%) is identified as having endocrine disrupting properties according to Regulation (EU) 2017/2100.

## SECTION 3 Composition/information on ingredients

## 3.1 Substance

Not Applicable

### 3.2 Mixtures

Description: Mixture of substances listed.

1.CAS No 2.EC No/List No 3.Index No 4.REACH No	%[weight]	Name	Classification according to regulation (EC)No 1272/2008 [CLP] and amendments	Nanoform Particle Characteristics	SCL/M-Factor/ ATF

## SECTION 4 First aid measures

## 4.1 Description of first aid measures

General advice	Seek medical attention if necessary. Show this Safety Data Sheet (SDS) to the physician present.		
Eye contact	Flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes and continue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist.		
Skin contact	Wash with water. If there are signs of irritation or other symptoms seek medical attention.		
Ingestion	Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.		
Inhalation  Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately.			

## 4.2 Most important symptoms and effects, both acute and delayed

No known symptoms or effects, acute or delayed.

## 4.3 Indication of any immediate medical attention and special treatment needed

No special immediate medical attention or special treatment needed.

# SECTION 5 Firefighting measures

## 5.1 Extinguishing media

Suitable extinguishing media	CO2,powder or water spray.Fight larger fires with water spray or alcohol resistant foam.
Unsuitable extinguishing media	Water with full jet.

## 5.2 Special hazards arising from the substrate or mixture

May form irritating fumes in the air under fire.

## 5.3 Advice for firefighters

1	As in any fire, wear self-contained breathing apparatus(MSHA/NIOSH approved or equivalent) and full protective gear.	
2	Fight fire from a safe distance, with adequate cover.	
3	Prevent fire extinguishing water from contaminating surface water or the ground water system.	

## SECTION 6 Accidental release measures

## 6.1 Personal precautions, protective equipment and emergency procedures

1	Ensure adequate ventilation.		
2	Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.		
3	Use personal protective equipment. Avoid breathing vapours, mist, gas or dust.		

## 6.2 Environmental precautions

1	Do not allow to enter sewers/ surface or ground water.
2	Discharge into the environment must be avoided.

## 6.3 Methods and material for containment and cleaning up

1	Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).		
2	Dispose contaminated material as waste according to item 13.		
3	Use respiratory protective device against the effects of fumes/dust/aerosol.		

## 6.4 Reference to other sections

1	See section 7 for information on safe handing.		
2	See section 8 for information on personal protection equipment.		
3	See section 13 for disposal in formation.		

# SECTION 7 Handling and storage

## 7.1 Precautions for handling

## > Protective measure

1	Ensure good ventilation/exhaustion at the workplace.		
2	Keep receptacles tightly sealed.		
3	Keep away from heat and direct sunlight.		
4	Avoid contact with eyes.		
5	Avoid breathing vapour.		

## Information about fire - and explosion protection

Normal measures for preventive fire protection.

# 7.2 Conditions for safe storage, including any incompatibilities

1	Keep containers tightly closed .		
2	Keep containers in a dry,cool and well-ventilated place.		
3	Store away from incompatible materials and food stuff containers.		
4	Store away from strong oxidants and strong acids.		

## 7.3 Specific end use(s)

See section 1.2

# SECTION 8 Exposure controls/personal protection

Page 3 of 10 Continued...

## 8.1 Control parameters

Ingredient	DNELs Exposure Pattern Worker	PNECs Compartment	
Glycerol	Inhalation 220 mg/m³ (Local, Chronic) Inhalation 132 mg/m³ (Local, Chronic) *	0.885mg/L (Water (Fresh)) 0.088 mg/L (Water - Intermittent release) 8.85 mg/L (Water (Marine)) 3.3 mg/kg sediment dw (Sediment (Fresh Water)) 0.33 mg/kg sediment dw (Sediment (Marine)) 1000 mg/L (STP) 0.141mg/kg soil dw (Soil)

Inhalation 372.52 mg/m³ (Systemic, Chronic) Dermal 52.82 mg/kg bw/day (Systemic, Chronic) Acid yellow 23 Inhalation 91.86 mg/m³ (Systemic, Chronic)* Dermal 26.41 mg/kg bw/day (Systemic, Chronic)* Oral 26.41 mg/kg bw/day (Systemic, Chronic)*		0.12 mg/L (Water (Fresh)) 1.2 mg/L (Water - Intermittent release) 0.012 mg/L (Water (Marine)) 10 mg/L (STP) 469.92 µg/kg sediment dw (Sediment (Fresh Water)) 46.992 µg/kg sediment dw (Sediment (Marine)) 23.53 µg/kg soil dw (Soil)	

<sup>\*</sup> Values for General Population

## 8.1.1 Occupational Exposure Limits (OEL)

## Ingredient data

Ingredient	Country	Limit value - Eight hours	Limit value - Short term
	Belgium	$10mg/m^3$	Not data available
	VLEP (France)	$10mg/m^3$	Not data available
	WELs(UK)	$10mg/m^3$	Not data available
	Finland	20mg/m³	Not data available
	AGS(Germany)	200mg/m³ [1]	400mg/m³ [11]2]
Glycerol, mist	DFG(Germany)	200mg/m³ [1]	400mg/m³ <sup>[1][2]</sup>
	Ireland	$10mg/m^3$	Not data available
	Poland	10mg/m <sup>3</sup>	Not data available
	Spain	10mg/m <sup>3</sup>	Not data available
	Switzerland	50mg/m³inhalable aerosol	100mg/m³inhalable aerosol

Remarks: 1. Inhalable fraction 2.15 minutes average value

## **Emergency Limits**

Ingredient	TEEL-1	TEEL-2	TEEL-3
Glycerol	45mg/m³	180mg/m³	1100mg/m³
C.I.Acid Blue 9	$30mg/m^3$	330mg/m³	$2000mg/m^3$
Polyvinyl pyrrolidone	$51mg/m^3$	560mg/m³	20000mg/m³

## 8.2 Engineering controls

General protective and hygienic measures The usual precautionary measures are to be adhered to when handling chemicals.

## 8.3 Personal protection equipment

General requirement	
Eye protection	Tightly fitting safety goggles (approved by EN166(EU) or NIOSH(US).
Hand protection	Wear protective gloves(such as butyl rubber, passing the tests according to EN 374(EU), US F739 or AS/NZS 2161.1 standard.
Respiratory protection	Not required under normal conditions of use.

Page 4 of 10 Continued...

Skin and body protection	Not required under normal conditions of use.
Other protection	No special equipment needed when handling small quantities.

# SECTION 9 Physical and chemical properties

## 9.1 Information on basic physical and chemical properties

Appearance	Pastel green	17.	Dynamic	Not determined	
Physical state	Liquid	- Viscosity	Kinematic:	Not determined	
Odour	Odourless	Vapour density (Air = 1)		Not determined	
Odour threshold	Not determined	Density/Relat	ive density	Not determined	
pH (as supplied)	Not determined	Decomposition	temperature	Not determined	
Melting point/freezing point(°C)	Not determined	Particle	Size	Not determined	
Flash point(Closed cup,°C)	Not determined	Vapour pressure (kPa)		Not determined	
Flammability	Not flammable liquid	Relative vapor density		Not determined	
Evaporation rate	Not determined	Partition coefficient n-octanol/ water		Not determined	
Upper Explosive Limit (%)	Not determined	Auto-ignition temperature(°C)		Not determined	
Lower Explosive Limit (%)	Not determined	Explosive p	roperties	Product does not present anexplosion hazard	
Self-igniting	Not determined	Oxidising p	roperties	Not determined	
Taste	Not determined	Surface Tension (dy	vn/cm or mN/m)	Not determined	
Volatile Component (%vol)	Not determined	Gas group		Not determined	
pH as a solution (1%)	Not determined	VOC g/L		Not determined	

## 9.2 Other information

No further relevant information available.

# SECTION 10 Stability and reactivity

## 10.1 Stability and reactivity

Reactivity	No further relevant information available.	
Chemical stability	Stable under proper operation and storage conditions.	
Possibility of hazardous reactions	No dangerous reactions known.	
Conditions to avoid	No further relevant information available.	
Incompatible materials	No further relevant information available.	
Hazardous decomposition products	No dangerous decomposition products known.	

# SECTION 11 Toxicological information

## 11.1 Information on toxicological effects

Inhaled	The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting. Not normally a hazard due to non-volatile nature of product.
Ingestion	The material has not been classified by EC Directives or other classification systems as "harmful by ingestion". This is because of the lack of corroborating animal or human evidence.
Skin Contact	The material is not thought to produce adverse health effects or skin irritation following contact (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable gloves be used in an occupational setting.
Eye	Although the liquid is not thought to be an irritant (as classified by EC Directives), direct contact with the eye may produce transient discomfort characterised by tearing or conjunctival redness (as with windburn).
Chronic	Long-term exposure to the product is not thought to produce chronic effects adverse to the health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimised as a matter of course.

Page 5 of 10 Continued...

## 11.2 Carcinogenicity

Component	Cas No.	IARC
C.I.Acid blue 9	2650-18-2	Not listed
Glycerol	56-81-5	Not listed
Acid yellow 23	1934-21-0	Not listed
Water	7732-18-5	Not listed
C.I.Acid red 52	3520-42-1	Not listed
Polyvinyl pyrrolidone	9003-39-8	Category 3

## 11.2.1 Endocrine Disruption Properties

None of the ingredients ( $\geq 0.1\%$ ) is considered to have endocrine-disrupting properties with respect to humans, as none of them meet the criteria set out in section A of Regulation (EU) No 2017/2100.

## 11.3 Primary irritant effect

Carcinogenicity	Based on available data, the classification criteria are not met.	
Skin corrosion/irritation	Based on available data, the classification criteria are not met.	
Serious eye damage/irritation	Based on available data, the classification criteria are not met.	
Skin sensitization	Based on available data, the classification criteria are not met.	
Respiratory sensitization	Based on available data, the classification criteria are not met.	
Reproductive toxicity	Based on available data, the classification criteria are not met.	
STOT-single exposure	Based on available data, the classification criteria are not met.	
STOT-repeated exposure	Based on available data, the classification criteria are not met.	
Aspiration hazard	Based on available data, the classification criteria are not met.

## 12.6 Endocrine Disruption Properties

None of the ingredients (≥0.1%) is considered to have endocrine-disrupting properties with respect to non-target organisms, as none of them meet the criteria set out in section B of Regulation (EU) No 2017/2100.

## 12.7 Other adverse effects

No further relevant information available.

#### **SECTION 13** Disposal considerations

### 13.1 Waste treatment methods

Product / Packaging disposal	Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.  1. Do not allow wash water from cleaning or process equipment to enter drains.  2. It may be necessary to collect all wash water for treatment before disposal.  3. Recycle wherever possible  4. Consult manufacturer for recycling options or consult local or regional waste management authority for disposal if no suitable treatment or disposal facility can be identified.
Waste treatment options	No further relevant information available.
Sewage disposal options	No further relevant information available.

#### **SECTION 14** Transport information

### 14.1 UN-Number

## SECTION 4 First aid measures

## 4.1 Description of first aid measures

General advice	Seek medical attention if necessary. Show this Safety Data Sheet (SDS) to the physician present.	
Eye contact  Flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes and continue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist.		
Skin contact	Wash with water. If there are signs of irritation or other symptoms seek medical attention.	
Ingestion	Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.	
Inhalation	Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately.	

## 4.2 Most important symptoms and effects, both acute and delayed

No known symptoms or effects, acute or delayed.

## 4.3 Indication of any immediate medical attention and special treatment needed

No special immediate medical attention or special treatment needed.

## SECTION 5 Firefighting measures

## 5.1 Extinguishing media

Suitable extinguishing media	CO <sub>2</sub> ,powder or water spray.Fight larger fires with water spray or alcohol resistant foam.
Unsuitable extinguishing media	Water with full jet.

## 5.2 Special hazards arising from the substrate or mixture

May form irritating fumes in the air under fire.

## 5.3 Advice for firefighters

Page 2 of 9 Continued...

Water based	dye ink-Pastel orange Version:1.1 Revision Date: 2024/10/28	
1	As in any fire, wear self-contained breathing apparatus(MSHA/NIOSH approved or equivalent)and full protective gear.	
2	Fight fire from a safe distance, with adequate cover.	
3	Prevent fire extinguishing water from contaminating surface water or the ground water system.	
SECTION 6	Accidental release measures	
6.1 Personal pr	ecautions, protective equipment and emergency procedures	
1 Ensure adequate ventilation.		
2	2 Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.	

•	77 7
₹	Use personal protective equipment. Avoid breathing vapours, mist, gas or dust.
3	ose personal protective equipment. It of or earning vapours, mist, gas or aust.

6.2 Environmental precautions

1	Do not allow to enter sewers/ surface or ground water.
2	Discharge into the environment must be avoided.

## 6.3 Methods and material for containment and cleaning up

1	Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).	
2	Dispose contaminated material as waste according to item 13.	
3	Use respiratory protective device against the effects of fumes/dust/aerosol.	

## 6.4 Reference to other sections

1	See section 7 for information on safe handing.
2	See section 8 for information on personal protection equipment.
3	See section 13 for disposal in formation.

# SECTION 7 Handling and storage

## 7.1 Precautions for handling

### > Protective measure

1	Ensure good ventilation/exhaustion at the workplace.
2	Keep receptacles tightly sealed.
3	Keep away from heat and direct sunlight.
4	Avoid contact with eyes.
5	Avoid breathing vapour.

## > Information about fire - and explosion protection

Normal measures for preventive fire protection.

## 7.2 Conditions for safe storage, including any incompatibilities

1	Keep containers tightly closed .
2	Keep containers in a dry,cool and well-ventilated place.
3	Store away from incompatible materials and food stuff containers.
4	Store away from strong oxidants and strong acids.

## 7.3 Specific end use(s)

See section 1.2

# SECTION 8 Exposure controls/personal protection

## 8.1 Control parameters

Page 3 of 9 Continued...

<sup>\*</sup> Values for General Population

## 8.1.1 Occupational Exposure Limits (OEL)

## Ingredient data

Ingredient	Country	Limit value - Eight hours	Limit value - Short term
	Belgium	$10mg/m^3$	Not data available
	VLEP (France)	$10mg/m^3$	Not data available
	WELs(UK)	$10 mg/m^3$	Not data available
	Finland	20mg/m³	Not data available
	AGS(Germany)	200mg/m³ <sup>[1]</sup>	400mg/m³ <sup>[1][2]</sup>
Glycerol, mist	DFG(Germany)	200mg/m³ <sup>[1]</sup>	400mg/m³ <sup>[1][2]</sup>
	Ireland	10mg/m³	Not data available
	Poland	10mg/m³	Not data available
	Spain	10mg/m³	Not data available
	Switzerland	50mg/m³inhalable aerosol	100mg/m³inhalable aerosol

Remarks: 1. Inhalable fraction 2.15 minutes average value

## > Emergency Limits

Ingredient	TEEL-1	TEEL-2	TEEL-3
Glycerol	45mg/m³	$180mg/m^3$	1100mg/m³
Polyvinyl pyrrolidone	$51mg/m^3$	560mg/m³	20000mg/m³

## 8.2 Engineering controls

General protective and hygienic measures

The usual precautionary measures are to be adhered to when handling chemicals.

## 8.3 Personal protection equipment

General requirement	
Eye protection	Tightly fitting safety goggles (approved by EN166(EU) or NIOSH(US).
Hand protection	Wear protective gloves(such as butyl rubber, passing the tests according to EN 374(EU), US F739 or AS/NZS 2161.1 standard.
Respiratory protection	Not required under normal conditions of use.
Skin and body protection	Not required under normal conditions of use.
Other protection	No special equipment needed when handling small quantities.

### **SECTION 9** Physical and chemical properties

## 9.1 Information on basic physical and chemical properties

Appearance	Pastel orange	Viscosity	Dynamic	Not determined
Physical state	Liquid		Kinematic:	Not determined
Odour	Odourless	Vapour densi	ty (Air = 1)	Not determined
Odour threshold	Not determined	Density/Relat	ive density	Not determined
pH (as supplied)	Not determined	Decomposition	temperature	Not determined
Melting point/freezing point(°C)	Not determined	Particle	Size	Not determined
Flash point(Closed cup,°C)	Not determined	Vapour pressure (kPa)		Not determined
Flammability	Not flammable liquid	Relative vapor density		Not determined
Evaporation rate	Not determined	Partition coefficient n-octanol/water		Not determined
Upper Explosive Limit (%)	Not determined	Auto-ignition temperature(°C)		Not determined
Lower Explosive Limit (%)	Not determined	Explosive p	roperties	Product does not present anexplosion hazard
Self-igniting	Not determined	Oxidising p	roperties	Not determined
Taste	Not determined	Surface Tension (dyn/cm or mN/m)		Not determined
Volatile Component (%vol)	Not determined	Gas group		Not determined
pH as a solution (1%)	Not determined	VOC g/L		Not determined

## 9.2 Other information

 $No\ further\ relevant\ information\ available.$ 

### **SECTION 10** Stability and reactivity

## 10.1 Stability and reactivity

Reactivity	No further relevant information available.	
Chemical stability	Stable under proper operation and storage conditions.	
Possibility of hazardous reactions	No dangerous reactions known.	
Conditions to avoid	No further relevant information available.	
Incompatible materials	No further relevant information available.	
Hazardous decomposition products	No dangerous decomposition products known.	

### SECTION 11 Toxicological information

## 11.1 Information on toxicological effects

Inhaled	The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting. Not normally a hazard due to non-volatile nature of product.		
Ingestion	The material has not been classified by EC Directives or other classification systems as "harmful by ingestion". This is because of the lack of corroborating animal or human evidence.		
Skin Contact	The material is not thought to produce adverse health effects or skin irritation following contact (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable gloves be used in an occupational setting.		
Eye	Although the liquid is not thought to be an irritant (as classified by EC Directives), direct contact with the eye may produce transient discomfort characterised by tearing or conjunctival redness (as with windburn).		
Chronic	Long-term exposure to the product is not thought to produce chronic effects adverse to the health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimised as a matter of course.

## 12.2 Persistence and degradability

Component	Cas No.	Persistence (water/soil)
Glycerol	56-81-5	Readily biodegradable in water
Food yellow 3	2783-94-0	Readily biodegradable in water
Acid red 18	2611-82-7	Not readily biodegradable in water

## 12.3 Bioaccumulative potential

Component	Cas No.	Bioaccumulative potential	Remarks
Glycerol	56-81-5	No potential for bioaccumulation	LogKow=-0.244 - 0.046
Food yellow 3	2783-94-0	Potential for a low bioaccumulation	BCF=3.2
Acid red 18	2611-82-7	No potential for bioaccumulation	LogKow=-2.267

## 12.4 Mobility in soil

Component	Cas No.	Soil Organic Carbon-WaterPartitioning Coefficient (Koc)
Glycerol	56-81-5	Koc=I
Food yellow 3	2783-94-0	Koc=25110
Acid red 18	2611-82-7	Koc=3.16

## 12.5 Results of PBT and vPvB assessment

PBT	Not Applicable
vPvB	Not Applicable

## 12.6 Endocrine Disruption Properties

None of the ingredients ( $\geq 0.1\%$ ) is considered to have endocrine-disrupting properties with respect to non-target organisms, as none of them meet the criteria set out in section B of Regulation (EU) No 2017/2100.

## 12.7 Other adverse effects

No further relevant information available.

# SECTION 13 Disposal considerations

### 13.1 Waste treatment methods

Product / Packaging disposal	Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.  1. Do not allow wash water from cleaning or process equipment to enter drains.  2. It may be necessary to collect all wash water for treatment before disposal.  3. Recycle wherever possible  4. Consult manufacturer for recycling options or consult local or regional waste management authority for disposal if no suitable treatment or disposal facility can be identified.
Waste treatment options	No further relevant information available.
Sewage disposal options	No further relevant information available.

## SECTION 4 First aid measures

## 4.1 Description of first aid measures

General advice	Seek medical attention if necessary. Show this Safety Data Sheet (SDS) to the physician present.
Eye contact	Flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes and continue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist.
Skin contact	Wash with water. If there are signs of irritation or other symptoms seek medical attention.
Ingestion	Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.
Inhalation	Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately.

## 4.2 Most important symptoms and effects, both acute and delayed

No known symptoms or effects, acute or delayed.

## 4.3 Indication of any immediate medical attention and special treatment needed

No special immediate medical attention or special treatment needed.

# SECTION 5 Firefighting measures

## 5.1 Extinguishing media

Suitable extinguishing media	$CO_{2}$ , powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
Unsuitable extinguishing media	Water with full jet.

## 5.2 Special hazards arising from the substrate or mixture

May form irritating fumes in the air under fire.

## 5.3 Advice for firefighters

1	As in any fire, wear self-contained breathing apparatus(MSHA/NIOSH approved or equivalent) and full protective year
,	Α΄ Α΄ ΝΙ ΑΝΌ ΠΤΡ΄ ΜΡΑΤ SPIT-CONTAINPA DEPAINING ADDATAINS (M.N.H.A./N.H.A./N.H.A.) ΤΗ ΑΠΡΟΥΘΡΑΙΟΝΑΙΡΝΙΙΟΝΑ ΤΗ Η

Water based of	dye ink-Pastel pink Version:1.1 Revision Date:2024/1
2	Fight fire from a safe distance, with adequate cover.
3	Prevent fire extinguishing water from contaminating surface water or the ground water system.
CTION 6	Accidental release measures
Personal pro	ecautions, protective equipment and emergency procedures
1	Ensure adequate ventilation.
2	Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.
3	Use personal protective equipment. Avoid breathing vapours, mist, gas or dust.
Environmen	atal precautions
1	Do not allow to enter sewers/surface or ground water.
2	Discharge into the environment must be avoided.
Methods and	d material for containment and cleaning up
1	Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
2	Dispose contaminated material as waste according to item 13.
3	Use respiratory protective device against the effects of fumes/dust/aerosol.

## 9.2 Other information

NW

No further relevant information available.

# SECTION 10 Stability and reactivity

# 10.1 Stability and reactivity

Reactivity	No further relevant information available.	
Chemical stability	Stable under proper operation and storage conditions.	
Possibility of hazardous reactions	No dangerous reactions known.	
Conditions to avoid	No further relevant information available.	
Incompatible materials	No further relevant information available.	
Hazardous decomposition products	No dangerous decomposition products known.	

# SECTION 11 Toxicological information

# 11.1 Information on toxicological effects

Inhaled	The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting. Not normally a hazard due to non-volatile nature of product.
Ingestion	The material has not been classified by EC Directives or other classification systems as "harmful by ingestion". This is because of the lack of corroborating animal or human evidence.
Skin Contact	The material is not thought to produce adverse health effects or skin irritation following contact (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable gloves be used in an occupational setting.
Eye	Although the liquid is not thought to be an irritant (as classified by EC Directives), direct contact with the eye may produce transient discomfort characterised by tearing or conjunctival redness (as with windburn).
Chronic	Long-term exposure to the product is not thought to produce chronic effects adverse to the health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimised as a matter of course.

## 12.6 Endocrine Disruption Properties

None of the ingredients ( $\geq 0.1\%$ ) is considered to have endocrine-disrupting properties with respect to non-target organisms, as none of them meet the criteria set out in section B of Regulation (EU) No 2017/2100.

No data available

## 12.7 Other adverse effects

C.I.Acid red 52

No further relevant information available.

### **SECTION 13** Disposal considerations

## 13.1 Waste treatment methods

Product / Packaging disposal	Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.  1.Do not allow wash water from cleaning or process equipment to enter drains.  2.It may be necessary to collect all wash water for treatment before disposal.  3.Recycle wherever possible.  4.Consult manufacturer for recycling options or consult local or regional waste management authority for disposal if no suitable treatment or disposal facility can be identified.
Waste treatment options	No further relevant information available.
Sewage disposal options	No further relevant information available.

### 16.3 Further information

The contents and format of this SDS are in accordance with Regulation (EC) No 1907/2006, its amendment Regulation (EU) No 2020/878 and (EC) No 1272/2008.

### **DISCLAIMER OF LIABILITY:**

This Safety Data Sheet (SDS) was prepared according to REACH Regulation The data included was derived from international authoritative data base and provided by the enterprise. Other information was based on the present state of our knowledge. We try to ensure the correctness of all information. However, due to the diversity of information sources and the limitations of our knowledge, this document is only for user's reference. Users should make their independent judgment of suitability of this information for their particular purposes. We do not assume responsibility for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product.

### SECTION 1 Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Product Name	Water based dye ink (Pastel purple)
Synonyms	
CAS NO.	_
EC NO.	
UFI Code	

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses	To write
Uses advised against	_

### 1.3 Details of the supplier of the Safety Data Sheet

Name of the company	Shanghai NNW New Materials Technology Co., Ltd.
Address of the company	ROOM 402, Buildiing17, Lane 268, Lingxin Road, Changning District Shanghai, CHINA
Post code	200335
Telephone number	021-64476059
Fax number	021-64476096
Email	sales@nnwchina.com

### 1.4 Emergency phone number

Emergency phone number	+8613311812200
------------------------	----------------

### **SECTION 2** Hazards identification

## 2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008	The product is not classified according to the CLP regulation.
A 7 4 4 4	

### 2.2 Label elements

Hazard pictogram(s)	Not Applicable
Signal word	Not Applicable
Hazard statements	Not Applicable

## 2.3 Precautionary statements

Prevention	Not Applicable

### SECTION 4 First aid measures

### 4.1 Description of first aid measures

General advice	Seek medical attention if necessary. Show this Safety Data Sheet (SDS) to the physician present.		
Eye contact	Flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes andcontinue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist.		
Skin contact	Wash with water. If there are signs of irritation or other symptoms seek medical attention.		
Ingestion	Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.		
Inhalation  Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately.			

### 4.2 Most important symptoms and effects, both acute and delayed

No known symptoms or effects, acute or delayed.

### 4.3 Indication of any immediate medical attention and special treatment needed

No special immediate medical attention or special treatment needed.

# SECTION 5 Firefighting measures

### 5.1 Extinguishing media

Suitable extinguishing media	CO2,powder or water spray.Fight larger fires with water spray or alcohol resistant foam.	
Unsuitable extinguishing media	Water with full jet.	

### 5.2 Special hazards arising from the substrate or mixture

May form irritating fumes in the air under fire.

# 5.3 Advice for firefighters

1	As in any fire, wear self-contained breathing apparatus(MSHA/NIOSH approved or equivalent)and full protective gear.
2	Fight fire from a safe distance, with adequate cover.
3	Prevent fire extinguishing water from contaminating surface water or the ground water system.

#### **SECTION 6** Accidental release measures

# 6.1 Personal precautions, protective equipment and emergency procedures

1	Ensure adequate ventilation.
2	Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.
3	Use personal protective equipment. Avoid breathing vapours, mist, gas or dust.

### 6.2 Environmental precautions

1	Do not allow to enter sewers/ surface or ground water.
2	Discharge into the environment must be avoided.

### 6.3 Methods and material for containment and cleaning up

1	Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).	
2	Dispose contaminated material as waste according to item 13.	
3	Use respiratory protective device against the effects of fumes/dust/aerosol.	

### 6.4 Reference to other sections

1	See section 7 for information on safe handing.
2	See section 8 for information on personal protection equipment.
3	See section 13 for disposal in formation.

### SECTION 7 Handling and storage

### 7.1 Precautions for handling

## Protective measure

1	Ensure good ventilation/exhaustion at the workplace.		
2	Keep receptacles tightly sealed.		
3	Keep away from heat and direct sunlight.		
4	Avoid contact with eyes.		
5	Avoid breathing vapour.		

### Information about fire - and explosion protection

Normal measures for preventive fire protection.

# 7.2 Conditions for safe storage, including any incompatibilities

1	Keep containers tightly closed .
2	Keep containers in a dry,cool and well-ventilated place.
3	Store away from incompatible materials and food stuff containers.
4	Store away from strong oxidants and strong acids.

## 7.3 Specific end use(s)

See section 1.2

### **SECTION 8** Exposure controls/personal protection

### 8.1 Control parameters

### 12.6 Endocrine Disruption Properties

None of the ingredients ( $\geq 0.1\%$ ) is considered to have endocrine-disrupting properties with respect to non-target organisms, as none of them meet the criteria set out in section B of Regulation (EU) No 2017/2100.

### 12.7 Other adverse effects

No further relevant information available.

## SECTION 13 Disposal considerations

### 13.1 Waste treatment methods

Product / Packaging disposal	Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.  1. Do not allow wash water from cleaning or process equipment to enter drains.  2. It may be necessary to collect all wash water for treatment before disposal.  3. Recycle wherever possible  4. Consult manufacturer for recycling options or consult local or regional waste management authority for disposal if no suitable treatment or disposal facility can be identified.	
Waste treatment options	No further relevant information available.	
Sewage disposal options	No further relevant information available.

### 16.3 Further information

The contents and format of this SDS are in accordance with Regulation (EC) No 1907/2006, its amendment Regulation (EU) No 2020/878 and (EC) No 1272/2008.

### **DISCLAIMER OF LIABILITY:**

This Safety Data Sheet (SDS) was prepared according to REACH Regulation The data included was derived from international authoritative data base and provided by the enterprise. Other information was based on the present state of our knowledge. We try to ensure the correctness of all information. However, due to the diversity of information sources and the limitations of our knowledge, this document is only for user's reference. Users should make their independent judgment of suitability of this information for their particular purposes. We do not assume responsibility for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product.

\*Safety Data Sheet (Conforms to Annex II of REACH (1907/2006) - Regulation 2020/878)

### SECTION 1 Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Product Name	Water based dye ink (Pastel yellow)
Synonyms	_
CAS NO.	
EC NO.	_
UFI Code	

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses	To write
Uses advised against	<del>_</del>

### 1.3 Details of the supplier of the Safety Data Sheet

Name of the company	Shanghai NNW New Materials Technology Co., Ltd.	
Address of the company	ROOM 402, Buildiing17, Lane 268, Lingxin Road, Changning District Shanghai, CHINA	
Post code	00335	
Telephone number	021-64476059	
Fax number	021-64476096	
Email	sales@nnwchina.com	

### 1.4 Emergency phone number

Emergency phone number	+8613311812200
------------------------	----------------

### **SECTION 2** Hazards identification

## 2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008	The product is not classified according to the CLP regulation.
--	--

### 2.2 Label elements

Hazard pictogram(s)	Not Applicable
Signal word	Not Applicable
Hazard statements	Not Applicable

## 2.3 Precautionary statements

Prevention	Not Applicable

### SECTION 4 First aid measures

### 4.1 Description of first aid measures

General advice	Seek medical attention if necessary. Show this Safety Data Sheet (SDS) to the physician present.	
Eye contact	Eye contact  Flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes and continue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist.	
Skin contact	Wash with water. If there are signs of irritation or other symptoms seek medical attention.	
Ingestion	pestion Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.	
Inhalation  Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately.		

# 4.2 Most important symptoms and effects, both acute and delayed

No known symptoms or effects, acute or delayed.

## 4.3 Indication of any immediate medical attention and special treatment needed

No special immediate medical attention or special treatment needed.

# SECTION 5 Firefighting measures

### 5.1 Extinguishing media

Suitable extinguishing media	CO2,powder or water spray.Fight larger fires with water spray or alcohol resistant foam.
Unsuitable extinguishing media	Water with full jet.

### 5.2 Special hazards arising from the substrate or mixture

May form irritating fumes in the air under fire.

# 5.3 Advice for firefighters

1	As in any fire, wear self-contained breathing apparatus(MSHA/NIOSH approved or equivalent) and full protective gear.	
2	Fight fire from a safe distance, with adequate cover.	

Page 2 of 9 Continued...

3

Prevent fire extinguishing water from contaminating surface water or the ground water system.

### SECTION 6 Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

1	Ensure adequate ventilation.	
2	Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.	
3	Use personal protective equipment. Avoid breathing vapours, mist, gas or dust.	

### 6.2 Environmental precautions

1	Do not allow to enter sewers/ surface or ground water.
2	Discharge into the environment must be avoided.

### 6.3 Methods and material for containment and cleaning up

1	Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).	
2	Dispose contaminated material as waste according to item 13.	
3	Use respiratory protective device against the effects of fumes/dust/aerosol.	

### 6.4 Reference to other sections

1	See section 7 for information on safe handing.	
2	See section 8 for information on personal protection equipment.	
3	See section 13 for disposal in formation.	

# SECTION 7 Handling and storage

### 7.1 Precautions for handling

### Protective measure

1	Ensure good ventilation/exhaustion at the workplace.	
2	Keep receptacles tightly sealed.	
3	Keep away from heat and direct sunlight.	
4	Avoid contact with eyes.	
5	Avoid breathing vapour.	

### Information about fire - and explosion protection

Normal measures for preventive fire protection.

### 7.2 Conditions for safe storage, including any incompatibilities

1	Keep containers tightly closed .
2	Keep containers in a dry,cool and well-ventilated place.
3	Store away from incompatible materials and food stuff containers.
4	Store away from strong oxidants and strong acids.

# 7.3 Specific end use(s)

See section 1.2

# SECTION 8 Exposure controls/personal protection

### 8.1 Control parameters

### Emergency Limits

Ingredient	TEEL-1	TEEL-2	TEEL-3
Glycerol	45mg/m³	180mg/m³	$1100 mg/m^3$

### 8.2 Engineering controls

### 8.3 Personal protection equipment

General requirement	
Eye protection	Tightly fitting safety goggles (approved by EN166(EU) or NIOSH(US).
Hand protection	Wear protective gloves(such as butyl rubber, passing the tests according to EN 374(EU), US F739 or AS/NZS 2161.1 standard.
Respiratory protection	Not required under normal conditions of use.
Skin and body protection	Not required under normal conditions of use.
Other protection	No special equipment needed when handling small quantities.

# SECTION 9 Physical and chemical properties

# 9.1 Information on basic physical and chemical properties

Appearance	Pastel yellow	1/224	Dynamic	Not determined
Physical state	Liquid	Viscosity	Kinematic:	Not determined
Odour	Odourless	Vapour density (Air = 1)		Not determined
Odour threshold	Not determined	Density/Relative density		Not determined
pH (as supplied)	Not determined	Decomposition temperature		Not determined
Melting point/freezing point(°C)	Not determined	Particle Size		Not determined
Flash point(Closed cup,°C)	Not determined	Vapour pressure (kPa)		Not determined
Flammability	Not flammable liquid	Relative vapor density		Not determined
Evaporation rate	Not determined	Partition coefficient n-octanol/water		Not determined
Upper Explosive Limit (%)	Not determined	Auto-ignition temperature(°C)		Not determined
Lower Explosive Limit (%)	Not determined	Explosive properties		Product does not present anexplosion hazard
Self-igniting	Not determined	Oxidising properties		Not determined
Taste	Not determined	Surface Tension (dyn/cm or mN/m)		Not determined
Volatile Component (%vol)	Not determined	Gas group		Not determined
pH as a solution (1%)	Not determined	VOC g/L		Not determined

# 9.2 Other information

 $No\ further\ relevant\ information\ available.$ 

### **SECTION 10** Stability and reactivity

# 10.1 Stability and reactivity

Reactivity	No further relevant information available.	
Chemical stability	Stable under proper operation and storage conditions.	
Possibility of hazardous reactions	Vo dangerous reactions known.	
Conditions to avoid	No further relevant information available.	
Incompatible materials	No further relevant information available.	
Hazardous decomposition products	No dangerous decomposition products known.	

### SECTION 11 Toxicological information

# 11.1 Information on toxicological effects

Inhaled	The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting. Not normally a hazard due to non-volatile nature of product.
Ingestion	The material has not been classified by EC Directives or other classification systems as "harmful by ingestion". This is because of the lack of corroborating animal or human evidence.
Skin Contact	The material is not thought to produce adverse health effects or skin irritation following contact (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable gloves be used in an occupational setting.
Eye	Although the liquid is not thought to be an irritant (as classified by EC Directives), direct contact with the eye may produce transient discomfort characterised by tearing or conjunctival redness (as with windburn).
Chronic	Long-term exposure to the product is not thought to produce chronic effects adverse to the health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimised as a matter of course.

[PICCS] Philippines Inventory of Chemicals and Chemical Substances

[KECI] Existing and Evaluated Chemical Substances

[AICS] Australia Inventory of Chemical Substances

Page 8 of 9 Continued...

### **SECTION 16** Other information

### 16.1 Information on revision

Creation Date	2024/10/28
Revision Date	2024/10/28
Reason for revision	

### 16.2 Abbreviations and acronyms

SCL: Specific Concentration limits

ATE: Acute Toxicity Estimates

Cas: Chemical Abstracts Service

PC -TWA: Permissible Concentration-Time Weighted Average

PC -STEL: Permissible Concentration-Short Term Exposure Limit

IARC: International Agency for Research on Cancer

STEL: Short Term Exposure Limit

TEEL: Temporary Emergency Exposure Limit

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)

IMDG: International Maritime Code for Dangerous Goods

IATA: International Air Transport Association

GHS: Globally Harmonised System of Classification and Labelling of Chemicals EINECS: European Inventory of Existing Commercial Chemical Substances

NOEC: No Observed Effect Concentration

BCF: BioConcentration Factors

ELINCS: European List of Notified Chemical Substances

DNEL: Derived No-Effect Level (REACH)

PNEC: Predicted No-Effect Concentration (REACH)

LC50: Lethal concentration, 50 percent

LD50: Lethal dose, 50 percent

PRT: Persistent Rioaccumulative and Toxic vPvB: very Persistent and very Bioaccumulative

### 16.3 Further information

The contents and format of this SDS are in accordance with Regulation (EC) No 1907/2006, its amendment Regulation (EU) No 2020/878 and (EC) No 1272/2008.

### **DISCLAIMER OF LIABILITY:**

This Safety Data Sheet (SDS) was prepared according to REACH Regulation The data included was derived from international authoritative data base and provided by the enterprise. Other information was based on the present state of our knowledge. We try to ensure the correctness of all information. However, due to the diversity of information sources and the limitations of our knowledge, this document is only for user's reference. Users should make their independent judgment of suitability of this information for their particular purposes. We do not assume responsibility for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product.
