

R220E

European Region

NON-CONDUCTIVE

- Heavy duty rubber housing minimizes risk of electrical shock

NON-SLIP

- Square construction prevents rolling
- Textured handle area for secure grip

DURABLE

- Survives 2-meter drop test

FACETED REFLECTOR

- Provides wide, high-quality spot

A heavy duty rubber case makes the R220E ideal as a non-conductive lighting tool for electrical applications. In addition, it is safe to use for plumbing and wet areas.

A built-in lanyard and clip easily hangs the light from nearby pipes or other extrusions and its small size is convenient in tight areas. With an improved, faceted reflector you can count on this light for a wide, high-quality spot.

Before Using Your Flashlight:
Please read all instructions and cautionary markings on the package and light
