DYMO®
LabelWriter Twin Turbo

COMBINED FORCES

THE EASIEST WAY TO PRINT LABELS FROM YOUR PC OR MAC

16 label types

55 labels per minute

The LabelWriter Twin Turbo combines two of the world's fastest label printers side by side in a single machine. The result is a quantum leap in flexibility and capacity. No more stopping to switch rolls to print a different size label, or to send out large mailings. All it takes is select, click, print. The Twin Turbo uses the synergy of saving time to maximize the full power, potential and speed of your labelling system.

16 LABEL TYPES, COUNTLESS POSSIBILITIES

EXCELLENCE IS A STATE OF MIND

LabelWriter Twin Turbo takes label printing to a completely new level of productivity. The ultimate for eliminating all the hassle of printing a label from your computer. It is a full function label printer with great design, handling labels up to 60 mm wide in a variety of specialised shapes and all at 300 dpi for high quality printing. Compatible with both PC and Mac. Connections are through a USB port. This is performance once only dreamed of.

TWIN FOR SPEED

The DYMO LabelWriter Twin Turbo is a next generation machine. It has both a faster print speed and a whole array of unique innovations. It optimises your productivity and creates an even more professional, efficient and effective working environment. Whether printing one label or hundreds, the job just got a whole lot easier and faster than ever before. DYMO has created the perfect printer for high volume label users for all sorts of jobs.

The Twin Turbo provides the simplest, easiest and fastest way to print a single label or hundreds from your PC or Mac. It is the perfect machine for printing great looking labels in seconds. Labels for envelopes, packages, files, media and name badges are just the beginning. And all with unparalleled convenience.
