FS1270E

Phoenix FS1270E Series
Titan II Fire & Security Safe

The Phoenix Titan II is a modern, compact, fire and security resistant safe designed to meet the need for residential and business use.

- **Fire Protection (Paper)** – Tested to the International NT Fire 017 - 60 fire test standard, at the Swedish SP Testing Centre providing 60 minutes fire protection for paper documents.

- **Fire Protection (Digital Media)** – Tested to MTC – DIP120 – 60DMA fire test standard, providing 60 minutes fire protection for digital media, DVD's, USB's and memory sticks.

- **Locking** – Fitted with a high security advanced digital lock with clear LED display and programmable user code up to 6 digits. The lock also has an integral alarm Siren that is triggered should the safe be attacked or the code wrongly entered 4 times.

- **Security Protection** – The safe is recommended for an overnight cash risk of £2,000.00 or £20,000.00 valuables* and is also ready prepared for floor fixing, with fixing bolts for concrete floors supplied

- **Drop Test** – Drop tested from 9.1 meters for resistance to the impact of falling through the burning floors of a building or the collapse of the building.

- **Special Features** – All models are supplied with key hooks and models FS1272E & FS1273E have the added advantage of height adjustable shelf and pull out drawer.

- **Colour** – Finished in a high quality scratch resistant paint Ral9003 White.

The FS1270E Series body is constructed from galvanised steel plate with a virtually airtight recessed curvature door, which prevents fire and smoke damage to the contents.
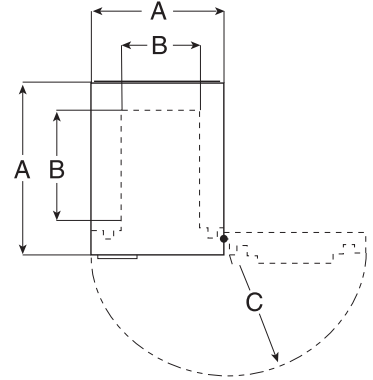

The door is secured using an advanced high security digital lock with programmable user codes up to 6 digits in length, spyproof code entry, wrong user time delay and built in alarm system.

The Phoenix FS1270E series is ready prepared for basefixing to the floor with heavy duty shield anchor bolts supplied. The added security offered by this method will deter even the most experienced criminal from attacking the safe.

The safe has a 60 minutes fire resistance at temperatures of 945c to International Standard NT Fire 017 – 60 to protect paper record and low risk digital media, dvd, cd and memory sticks.

(Specialist data protection for high risk computer generated disks and magnetic media is available in the Phoenix Data Protection range DS2000K/E, DS2500E, DS4620E,DS4640E).

The safe is also drop tested from 9.1 metres to simulate falling through the floors of a burning building or being buried under a collapsing building.
