The body of the Fire Fighter II Series is constructed from galvanised steel plate with a virtually airtight recessed curvature door. This specially designed door prevents fire and smoke damage to the contents of the safe. Furthermore each safe is insulated with an amazing fire resistant material that actively repels heat.

Every Phoenix Fire Fighter II is complete with shelf units to suit any combination of requirements and maximise its large interior capacity.

This attractive safe is ideal for the protection of important documents such as insurance policies, passports and share certificates.

All Phoenix Fire Fighters II safes are manufactured and tested for up to 120 minutes and are approved by authorities around the world. In addition, Phoenix guarantee to replace completely free of charge, any safe involved in a fire – a demonstration of our faith in this unique product. So relax with the security of a Phoenix Fire Fighter.
