DESCRIPTION

The spacious BUNKER modular wall cabinet is a standout in our versatile modular storage collection, designed to add both style and functionality to your garage or workshop. It can be used as a single, sleek storage solution or combined with other options from the BUNKER modular storage range to create a tailored setup that fits your needs perfectly.

Built from premium-quality steel and protected by an industrial-grade powder coating, this wall cabinet is crafted for durability and long-lasting performance. The cabinet's design includes a lift-up door that operates smoothly and is supported by durable gas struts for effortless access. A silver aluminium handle spans the full width of the door, providing a modern, streamlined finish. For added security, the cabinet is equipped with a built-in lock and comes with two keys to ensure your tools and equipment are safe.

Delivered fully assembled with all necessary fittings for straightforward installation, the BUNKER wall cabinet offers flexible mounting options. Attach it directly to a wall, secure it to a pegboard, or integrate it with a floor cabinet using a back panel and side wall bracket for a maximised storage solution. Discover our full range of BUNKER stockists online and start designing a garage or workshop that combines style, security, and functionality.

Some BUNKER products are sent on pallets. Their high quality construction means that some products are heavy and will require two people to lift them. Tools not included.
