DESCRIPTION

The BUNKER T3 Tipper is a heavy-duty tool storage box designed to provide secure, practical storage for tools in your vehicle. Made from premium-grade steel with a durable phosphate coating, the BUNKER T3 tool box is built to withstand the demands of everyday trade use while helping protect your tools from theft.

Designed with accessibility in mind, the BUNKER T3 Tipper van tool box features a wide drop-front door that provides unobstructed access to your tools and equipment. The smooth gas strut opening and closing mechanism makes it easy to open and close the box, while the practical design allows you to quickly access what you need when working from your van.

Security is at the heart of the BUNKER T3 Tipper. A key feature of this box is the patented anti-theft screws which secure the front lid handle, designed to break if forced, preventing leverage to break in. Additionally, there is a reinforced lid, an internal hinge and steel cross-bracing help protect the box against tampering and forced entry, while the high-performance disc locks provide an additional layer of security. The tool box can also be securely attached to your vehicle's floor using the adjustable feet and secure vehicle-fixing points.

For added peace of mind, the BUNKER T3 Tipper includes a discreet built-in AirTag holder, allowing you to add a compatible tracker to your storage box. Carry handles on both sides also make the box easier to transport when needed, while all necessary fixings for installation in your vehicle are supplied.

The BUNKER T3 Tipper has been tested and certified to Silver by Sold Secure, the UK's leading authority on security products, and Secured by Design, the official police security initiative. This provides added confidence when choosing the BUNKER T3 tool box for secure storage in your vehicle.

All BUNKER storage products come with a 12-month warranty, extended to 10 years upon registration.
