## DESCRIPTION

75mm compact air cut-off tool for cutting auto body panels and light metal. Manufactured with a composite housing fitted with a 360° rotating guard and an ergonomic soft grip handle, which provides comfort even when used for prolonged periods. The paddle trigger provides easy start and control whilst the adjustable 4-speed rear regulator helps deliver precision cutting when required. Attached with a 1/4" BSP airline connector which connects with the 360° rotating air inlet, helping prevent air-lines from kinking when in use. The ergonomic design and lightweight housing assist in prevention of the cold-sink effect.
