**FEATURES**

- Resistant to corrosion and can be used for a wide range of automotive and industrial fluids
- Coloured caps enable easier identification of contents and prevent contamination
- Easy-to-open screw cap and a flexible spout with lid
- A tight-closing filling flap keeps out dirt and dust
- Clear markings in both quarts and litres

**DESCRIPTION**

Made of polyethylene plastic, these four jugs are resistant to corrosion and can be used for a wide range of automotive and industrial fluids. They come with coloured caps – blue, green, red and yellow – to enable easier identification of contents and to prevent contamination. The jugs have an easy-to-open screw cap, a flexible spout with a lid and a tight-closing filling flap to keep out dirt and dust. There are clear markings in both quarts and litres.

**CONTENTS**

1 x Jug Set, 5L (4 Piece)
