- Six cutting heights from 25-75mm
- Single lever height adjustment
- Powerful 1600W motor, built to be reliable
- 10m long-reach power cable
- Soft grip handlebar
- Foldable handle for compact storage

DESCRIPTION

This electric lawn mower has a powerful 1600W motor, a 400mm cutting width and a 10m long-reach power cable - making it ideal for medium-sized lawns. To provide a choice of finish, there are six adjustable cutting heights from 25-75mm. The height is easily adjusted by moving a single lever to one of the six cut positions. The large 45L grass collection box ensures more time is spent mowing than emptying grass cuttings. It is also collapsible for easy storage. There is a carry handle on the motor and it is comfortable to push, thanks to the soft grip handle, which also folds down to make the mower easier to store while not in use.
