- Single level height adjustment
- Seven cutting heights 25-75mm
- Mulching function
- Two cup holders
- Handle folds for easier storage
- 65L grass collection bag
- Compatible with E10 Fuel

DESCRIPTION

This self-propelled four-stroke petrol lawn mower has a robust steel deck and is ideal for large lawns. There is an easy-to-use engine operation and drive lever. The blade has a cutting width of 510mm with an adjustable cut height of between 25-75mm. This mower can either collect grass cuttings or finely mulch the clippings back onto the lawn. Mulching is a great way of recycling grass cuttings to naturally add vital nutrients to the lawn. There are two integrated cup holders. The grass collection bag has a capacity of 65 litres. The handle can be adjusted for height, and it folds for easier storage. Compatible with E10 Fuel.
