

To make assembly easier we recommend having two persons aid one another.

Stock No. **28105**

Part No. **MS400-PTR**

### ASSEMBLING WITH 27" / 54" WALL CABINET

- The power tool rack suits 27" wall cabinet (33162, Fig 1) & 54" wall cabinet (28499, Fig 2).
- Connect the wall cabinet and power tool rack with bolt M6 x 16mm, flat washer and spring washer.

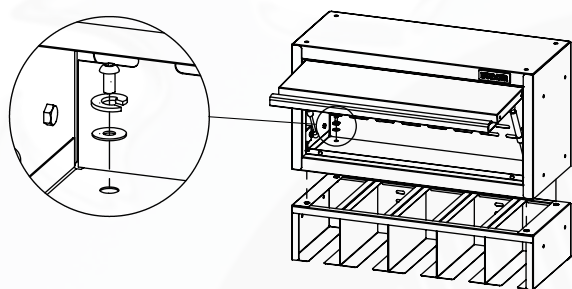

FIG. 1

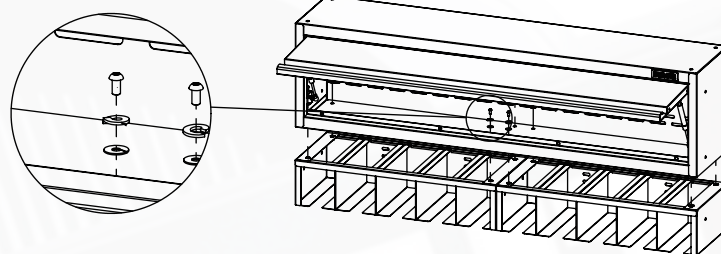

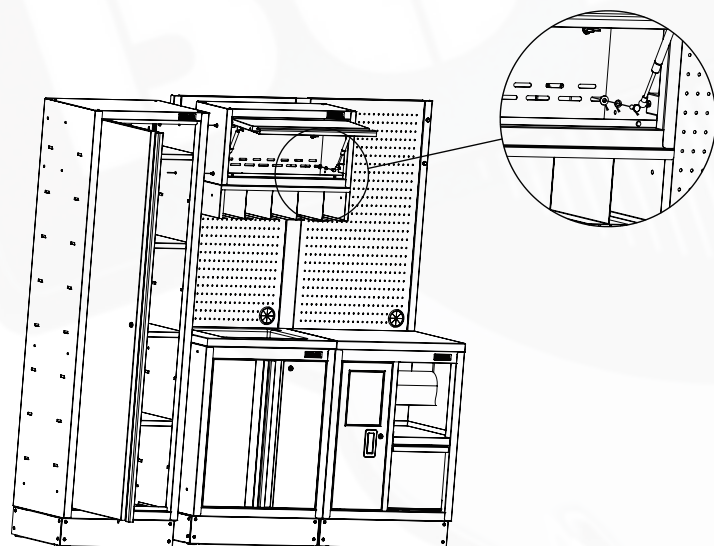

FIG. 2

### FITTING THE WALL CABINET AND POWER TOOL RACK TO A PEGBOARD

#### STEP 1:

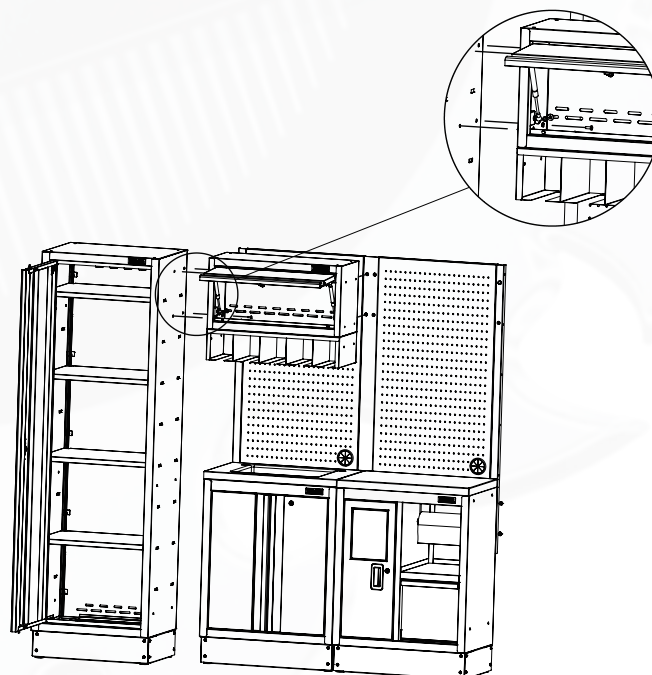

- Attach the wall cabinet to wall brackets with bolt M8 x 16mm, flat washer and spring washer, and tighten with wrench (not included).

**Note:** Do not fully tighten.

#### STEP 2:

- Connect the side panels of two cabinets with bolt M6 x 16mm and nut M6 and tighten with wrench (not included).

## FITTING THE WALL CABINET AND POWER TOOL RACK TO A WALL

- Determine the spacing of the plastic plugs at a desired height.
- Position the wall cabinet on the wall surface, use the holes on back panel to line up and mark the position as per the spacing marked in below figure.
- Using a drill bit, drill the holes and insert the four plastic plugs.
- Attach the wall cabinet to the wall with screw ST6.3 x 65mm and tighten with cross slot screwdriver (not included).
