

# SAFETY DATA SHEET

Product Name: Iron Silicate Synthetic Mineral

Issue Date: 11/03/2025 Version: 2

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

**PRODUCT NAME:** Iron Silicate Synthetic Mineral

**APPLICATIONS:** For Shot Blasting Grit, 25kg Bag, Fine Grit (40112)  
Shot Blasting Grit, 25kg Bag, Medium Grit (40408)

**SUPPLIER:** Draper Tools Ltd

Hursley Road  
Chandlers Ford  
Eastleigh  
Hampshire  
SO53 1YF  
[www.drapertools.com](http://www.drapertools.com)

**Emergency telephone number:** Draper Helpline +44 (0) 2380 494344  
Opening hours 8:30-17:00 Monday – Friday.

## SECTION 2: Hazards identification

**Main Hazards** Dust from handling operations.  
**Health Effects - Eyes** Dust may cause slight transient irritation.  
**Health Effects - Skin** Repeated or prolonged contact may produce irritation.  
**Health Effects - Ingestion** None known.  
**Health Effects - Inhalation** Exposure to dust may have the following effects: - irritation of nose, throat and respiratory tract.

## SECTION 3: Composition/information on ingredients

Hazardous Components in Product under EC – no hazardous components. The material is a synthetic mineral with a strongly bonded matrix structure of different elements produced by quenching molten slag into cold water.

Component Name	Codes	Concentration %
Silica Oxide	SiO <sub>2</sub>	29.73 %
Calcium Oxide	CaO	1.17 %
Aluminium Oxide	Al <sub>2</sub> O <sub>3</sub>	2.72 %
Iron Oxide	FeO	45.29 %
Sulphur	S	0.59%
Lead Oxide	PbO	0.49%
Arsenic	As	840ppm

All other elements are trace elements. There is analytically no free silica in this product.

## SECTION 4: First aid measures

### General:

In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.

### Inhalation:

Remove to fresh air, keep the patient warm and at rest. If breathing is irregular or stopped, administer artificial respiration. Give nothing by mouth. If unconscious, place in the recovery position and seek medical advice.

### Skin Contact:

Remove contaminated clothing. Wash skin thoroughly with soap and water or use a proprietary skin cleaner.

### Ingestion:

Mouth rinse and give water to drink.

### Eye:

Eye wash with plenty of water.

---

## SECTION 5: Firefighting measures

**Extinguishing media:** Water

## SECTION 6: Accidental release measure

### Recovery measures:

Product can be swept up dry or wet. Personnel should use appropriate personal protective equipment particularly if material is in powder form and dry.

## SECTION 7: Handling and storage

### Handling:

Avoid breathing dust and spillage whilst handling.

The Manual Handling Operations Regulations may apply to the handling of bags when carrying out assessments.

### Storage:

The storage and use of this product is not subject to any requirements but it should be kept dry where this is important for further process use.

## SECTION 8: Exposure controls/personal protection

### General:

- a) Persons with a history of asthma, allergies or chronic or recurrent respiratory disease should only be employed in processes in which this product is used under supervision.
- b) Persons with a history of skin sensitisation problems should only be employed in processes in which this product is used under appropriate medical supervision.

### Engineering Measures:

Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction during process use.

Occupational Exposure Standards:

1. Total dust                      Less than 10 mg per cubic metre 8h TWA
2. Respirable dust               Less than 4 mg per cubic metre 8h TWA

### Personal Protection:

All Personal Protective Equipment, include Respiratory Protective Equipment, used to control exposure to hazardous substances must be selected to meet the requirements of the COSHH Regulations.

### Respiratory Protection:

None except where used in applications that would cause dust, and then appropriate respiratory protection should be used depending on the application.

### Hand Protection:

When skin exposure may occur, advice should be sought from glove suppliers on appropriate types. Barrier creams may help to protect exposed areas of the skin but are not substitutes for full physical protection.

### Eye Protection:

Eye protection designed to protect against exposure which should be an EC approved helmet in blasting operations.

### Skin Protection:

Cotton or cotton/synthetic overalls or coveralls are normally suitable. Grossly contaminated clothing should be removed, and the skin washed with soap and water or a proprietary skin cleaner.

## SECTION 9: Physical and chemical properties

<b>Physical state</b>	Solid, angular black granules
<b>Odour</b>	None
<b>Explosion Limits (%)</b>	None
<b>Flash point:</b>	None
<b>Solubility in water (kg/m<sup>3</sup>)</b>	Insoluble
<b>Density (kg/m<sup>3</sup>)</b>	1800
<b>Hardness</b>	7 - 8 mohs
<b>Specific gravity</b>	3.7
<b>Chloride content</b>	less than 25 ppm

## SECTION 10: Stability and reactivity

**Stability**                                      Stable under normal conditions

---

## SECTION 11: Toxicological information

<b>Acute Toxicity</b>	No relevant studies identified.
<b>Irritancy - Eyes</b>	Splashes in the eye may cause irritation and irreversible local damage.
<b>Irritancy - Skin</b>	Repeated or prolonged contact with the product may lead to skin irritation.
<b>Sub-acute/Subchronic Toxicity</b>	No relevant studies identified.
<b>Chronic Toxicity/Carcinogenicity</b>	Appropriate protective measures and good hygiene practices should be followed in order to minimise potential exposure.
<b>Genotoxicity</b>	No relevant studies identified.
<b>Reproductive/Developmental Toxicity</b>	No relevant studies identified.
<b>Human Data</b>	Inhalation over long periods of time may constitute a health hazard.
<b>Additional Data</b>	None

## SECTION 12: Ecological information

There is no data available on the product itself. The Air Pollution Control requirements of regulations made under the Environmental Protection Act may apply to the use of this product.

## SECTION 13: Disposal considerations

The material in its supplied form is non hazardous inert solid waste and is classified as such under Appendix A section 10 06 01 of the Consolidated European Waste Catalogue EC Landfill Directive ( 16 th July 2004 ).

The disposal of material after it has been used may cause the product to fall into a different category.

## SECTION 14: Transport information

UN Number	Not regulated.
ADR/RID substance ID number	Not regulated.
IMDG	Not regulated.
Tremcard No. TEC ®	Not regulated.

## SECTION 15: Regulatory information

The information contained in this safety data sheet does not constitute the supplier's own assessment of workplace risks as required by other Health and Safety legislation. The provisions of the Health and Safety at Work etc. Act and the Control of Substances Hazardous to Health Regulations apply to the use of this product at work.

## SECTION 16: Other information

The information contained in this safety data sheet is based on the present state of knowledge and current national legislation. It provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications, and we do not accept any liability for any loss or damage , however arising, which may result directly or indirectly from the use of this information.

Further information and relevant advice can be found in: The Control of Substances Hazardous to Health Regulations 1988 (SI 1988. 1657). The Manual Handling Operations Regulations 1992 (SI 1992:2793) The Environmental Protection (Duty of Care) Regulations 1992 (SI 1992-2839).
