

"Ultimate Range"  
Projection Screen

"Imagine if....."

- \* Imagine if you had a screen that was almost invisible to visitors until in use and when you finish viewing the trap door closes magically to hide the fabric.
- \* Imagine if the motor and the structure was designed to be whisper quiet.
- \* Imagine if the screen was able to drop down when you turn on your projector.
- \* Imagine if the fabric was probably the best in the business giving vibrant colour with a perfectly flat tensioned surface.
- \* Imagine if the product had a 5 year comprehensive warranty.

Tab-Tension Motorized screen

- Combined with the High Definition PS Series Flexible Fabric, viewers will enjoy an amazing theatre like experience.
- Tension System which ensures the screen is always flat.
- With the standard easy to use mounting bracket, it is simple to install in various installation environments.

**Control Options**

*Switch (Optional)*  
Standard low voltage wall switch - just plug in via RJ12 plug on the end of the screen

*STR Radio Trigger (Optional)*  
If you have an existing set up and cannot cable the 12V from projector to screen this will solve the problem by radio link.

Dreams are now reality...

Recessed-Ceiling Series

Recessed ceiling screen features the "Separated Casing" patented technology that reduces noise and vibrations. This helps to eliminate the common noise problem caused by the friction between the screen casing and ceiling. This exclusive technology ensures that while the screen is completely hidden providing a seamless look there is no compromise in quality. This screen is designed to be recessed into the ceiling and is an ideal hidden solution for installations such as home cinema, office and conference rooms. The sturdy case boasts an easy to install yet functional design.

- By Utilizing an aluminum alloy casing, it provides the screen with a more solid and rigid structure while at the same time reducing overall weight.
- The design of the modern and attractive recessed ceiling screen blends seamlessly with any interior decoration and installation scheme.

Recessed-Ceiling Tab-Tension Screen

- With an aluminum alloy casing design, it provides a modern lightweight yet rigid structure.
- Combined with the High Definition PS Series Flexible Fabric, viewers will enjoy an amazing theatre like experience.
- The Tension System which ensures the screen is always flat.
- Global first Separated Casing Patented Technology.
- The recessed design is made to integrate into any environment.
- The integrated control system allows the screen to be fully customisable and gives the user a variety of control options.
