## Accuratus Accumed Mouse - Combo (USB & PS/2) Full Size Sealed IP67 Antibacterial 5 Button Medical Mouse

Model No. MOUNA-SIL-CBK (Black) or MOUNA-SIL-CWH (White)

### About

The Accuratus Accumed range of medical grade keyboards & mice have our NANOARMOUR-2 dual layer antibacterial protection impregnated in the silicone and coated on the surface to help prevent the passing of germs/build up of bacteria & virus's. The range are specifically designed for environments which have to meet very high hygienic requirements such as hospitals, dental practitioners, cosmetic surgeries, doctors, vets, laboratories and in food & pharmaceutical production areas. Not only could these keyboards be used in hygienic areas, they would also be perfect in dusty, dirty and wet situations like workshops, boats and in vehicles. Our Accumed range have all been designed so that there are no areas around the keys and buttons where dirt and germs can collect, this combined with our Nanoarmour 2 antibacterial technology is the perfect combination for the prevention and passing of germs.

## What is NANOARMOUR and how does it work?

NANOARMOUR is a compound of TiO<sub>2</sub> and silver nano-particles which have an antibacterial activity. Silver nano-particles have been used on a wide range of high-end medical products and have been approved against Escherichia coli, Staphylococcus aureus and so many more bacteria... The NANOARMOUR coating can and will kill and deactivate bacteria and virus's with 99.9% efficiency! Our complete NANOARMOUR range have been fully SGS tested and passed against the JIS Z 2801:2001 antimicrobial test standards.
