Accuratus Toughball 2 - 2.4GHz Wireless Multimedia Keyboard with Optical Trackball

About

Toughball 2, beautiful close up, even better from a distance... From its special coating to its pin sharp optical trackball, the Toughball 2 is a product of beauty. Hook the Toughball up to a PC with an LCD projector and be staggered at it's wireless range. Use it with your media center and realise it works from all corners of the room or simply use it as a solid workhorse in the office. Either way the Toughball 2 will not disappoint.

Comfortable on and off the desk... Sooner or later you will want to sit back at your desk - only then will you appreciate the sculptured underside and newly designed contoured thumb areas. It's subtle curves will lock the keyboard on your lap making it far easier to work with than most flat keyboards. The Toughball 2 has a new high resolution stainless steel trackball giving a very precise, extremely durable and reliable mouse movement.

- Fully retail packaged

Physical Specifications

- Dimensions: 344 x 162 x 47.5 mm (l x w x h)
- Weight: (g) 600 (including batteries)

CE RoHS

What has been improved on the Toughball 2?

- Improved design allowing shaping for your thumbs so the keyboard is much more comfortable to hold and use
- Very durable stainless steel trackball compared to the previous plastic ball where the texture could wear away and affect use
- More responsive and tactile keys allowing for improved typing
- Slightly smaller in size so that it is easier to handle and transport
- Smaller wireless dongle, which should prevent some breakages of the dongle (a common occurrence we found)
- 2 extra Multimedia buttons, Refresh and Favourites
- Operates on only 2 x AA batteries (previously 4 x AA batteries)
- Windows 8 keys
- Reduced packaging, saving the environment with paper and transportation.
