

ACCURATUS - S24A

24 Key Programmable Keypad with Re-legendable Keycaps

KYB500-S24A

FEATURES

- PS/2 Connection
- 24 Cherry MX keys based on Gold Crosspoint technology with a tactile feeling
- Two different key actions (soft contact and keyclick)
- Damaged keys can be easily replaced
- With internal metal plate for key fixation, the protection against ESD is increased
- Different relegendable keycaps (1 fold, 2 fold, 4 fold) are available
- Normal numeric keycaps are available
- Widely used as POS Touchscreen keypad

PROGRAMMABLE FEATURES

- All keys can be programmed with unlimited characters
- All data can be retained for no less than 100 years without additional battery
- Does not require a TSR program and hence avoids application software crashes
- Provides multi-level programming
- Variable time delay of up to 255 seconds in each programmed string
- Provides true keyboard wedge function that operates with or without the normal computer keyboard connected
- Provides a true Caps/Scroll/Numeric Lock function independent of any other keyboards being connected
- Support PS/2 programming in DOS, Windows9X, Me, 2K, XP
