

30m Coax High Resolution Monitor VGA Video Cable - HD15 M/M

StarTech ID: *MXTMMHQ30M*

The MXTMMHQ30M High Resolution VGA Cable (30-meter) is designed to provide the highest video quality possible through VGA, ideally suited for high resolution applications of 1920x1200 and above.

This durably constructed coaxial VGA video cable (HD15 to HD15) eliminates the picture "ghosting" and fuzzy images that are inherent to non-coaxial VGA cables, while delivering superior EMI interference protection by using ferrite cores near the connector ends.

Applications

- Replace a worn-out or missing VGA monitor cable with this high quality, coax VGA cable
- Supports high resolution VGA monitors (1920x1200)
- Create a longer connection between a high resolution VGA display and a desktop PC/video switch than a typical cable length would allow

Features

- Triple coaxial + twisted-pair wire for crystal clear display
- Durably constructed cable, with high quality HD15 connectors
- Impedance matched at 75 Ohms for full brightness and vibrant picture color from your VGA monitor
- High quality VGA connectors with molded PVC strain relief
