

## Technical Data Sheet

### General

Article number: 6375 + 6375-6

Description: Breathable Spraymask  
(4 m x 150 m)  
Breathable Spraymask  
(6 m x 100 m)

### Specification

Form: Film on a roll.  
Material: HDPE, with calcium addition  
Color: Transparent blue  
Film thickness: 12 micron  
Film width x length: 4 meter x 150 meter; 6 meter x 100 meter  
Properties: Static - the film 'clings' to the surface, Specially treated for optimal paint adhesion, Breathing capabilities, Moist absorbing, Can be used with infra-red drying (max. 120°C).  
Packaging: Per roll in a carton box. Carton box can be used as a dispenser.

### Application

Colad products are worked up and designed for use in car body shops. The Masking Films are ideal for quick and efficient covering of a vehicle and protect it against overspray, dirt and dust. Colad Breathable and Moist absorbing Spraymask with paint adhesion - primer and/or paint adheres permanently to the film. This film is supplied with micro holes which gives the spraymask "breathing" capabilities and because of the use of a calcium layer additional moist absorption is provided. Moist will evaporate from below the foil after application. Therefore this film is ready to use on a humid object and prevents "Ghost stains". This film has static properties, is easy to cut with art.no. 2070 or 2075 and can be used with infrared drying (max. 120°C). By using the Colad Mobile Foil Dispenser (Art.no. 2062) covering can be done by one person.

#### Used for:

- Sanding / Surface Preparation
- Painting

Paint Adhesion    High static Power    High tensile strength    Infrared drying max. 120°C    Breathing capabilities    Moist absorbing    Extra Wide 6m

The Colad assortment has a complete range of Masking Film for quick and efficient masking, together with the 6375 (4 x 150 m), 6340 (3,8 m x 200 m) 6340300 (3,8 m x 300 m), 6345 (4 m x 150 m, 17 micron), 6365 (4 m x 300 m), 6660-5 (5 m x 120 m) and the 6660 (6 m x 100 m) there is a fitted film for every job.
