FOR SCRATCHES
AND PAINT DEFECTS

BEST RESULTS:

ADVANCED CUT

Solvent-free cutting compound that removes aggressive scratches in an instant!

new

“Aggressive scratches take a lot of time and effort to remove! Colad Advanced Cut removes difficult scratches and paint defects in no time!”

Colad Advanced Cut is the newest addition to EMM's polishing range. This solvent- and silicone-free cutting compound for aggressive polishing is capable of tackling the hardest polishing jobs on all types of surface.

Saving time has never been easier. With the solvent and silicone-free Colad Advanced Cut there's no need to mask before you apply the cutting compound and as a result, it's better for your health.

Achieve the best results by using Colad Advanced Cut in combination with Colad Clean Pad Hard and a rotary machine. Scratches are quickly removed when applying the compound after sanding with P1200. Finally, apply Colad OneStepReady to achieve a high-gloss finish.
