

THE IDEAL SOLUTION FOR ENVIRONMENTAL FRIENDLY CLEANING OF PUTTY KNIVES

HR 1000 CLEANING FLUID

This cleaning product is developed for safe, fast and environmental friendly removal of polyester mastic, two-component polyurethanes, water-based and solvent-based paints, clear coatings and all kinds of glue from putty spreaders, rules and small components. It is the replacement for chemical cleaning and solvent based products that are harmful for environment and health.

The HR 1000 Cleaning Fluid is fast working product made of biodegradable ingredients. It fits perfectly in a sustainable workshop.

FEATURES

Art.no. 009819 - 10 litre

- ▶ Putty knives
- ▶ Liquid
- ▶ Fast working
- ▶ Non flammable vapours
- ▶ Mild odore
- ▶ High flash point and low vapor pressure

GOOD TO KNOW

- ▶ Suitable for spraying, dipping and brushing in the automotive pre-processing.
- ▶ 100 % silicone free
- ▶ Origin of biodegradable ingredients
- ▶ Not suitable for cleaning spray guns
- ▶ Wear gloves because of the strong degreasing effect
- ▶ Creates no additional ATEX zone

RELATED PRODUCT

HR 1000 Micro Cleaner

Art. no. 000457

A wall manual stainless steel washing tank of 7 litre. For manual cleaning of i.a. putty knives. With a cleaning brush and automatic circulation of fluid.

ADVANTAGES

- ▶ It barely evaporates and can be used for a long period of time. When the product is completely saturated with e.g. putty residue, strain it with a paint strainer. The product then can be re-used again. The product has a up to 10 times longer lifetime then cleaning with solvents.
- ▶ Usable in the mixing room. Because of the high flash point the product is also usable outside the mixing room e.g. in the automotive pre-processing department, without any extra safety measures.
- ▶ No flammable vapours are released, therefore there is no additional ATEX zone and the HR 1000 Cleaning Fluid can be used everywhere!
- ▶ Because of the mild odor of the HR 1000 Cleaning Fluid it is a pleasant product to work with.
