

Technical Data Sheet

General

Article number: 87xx
Description: OneStepReady

Specification:

Colad OneStepReady polishing compound is a dual function one step polishing material for various surfaces. OneStepReady functions at the start of the polish process as a fine sanding paste. The fine sanding particles in the paste transform during the polishing process and become finer along the way. The polishing material changes from sanding paste towards a finishing polishing compound, without creating polishing dust. Reaching a high gloss surface without holograms in one step. Colad OneStepReady does not contain solvent and silicones, and therefore safe for the user. Available in 1 kg and 250 g.

Features and benefits:

- One step polishing compound: efficient in use, you only need one sponge and one polishing material
- Works excellently with both old and new coatings
- Can be used on all kinds of painted surfaces
- Non-solvent based

Application:

Performs best in combination with Colad foam pads 010050 & 010051. "Hard" for aggressive polishing (deeper scratches) "medium" for less aggressive polishing (finish).

Technical Specification:

Packaging	1 kg (art. no. 8700) = 12 x 1 kg 250 g (art. no. 8725) = 15 x 250 g
