## Colad Pump Sprayer Ultimate - Solvent

This solid pump sprayer is highly resistant to nearly all water- and solvent-based degreasers, due to the specially designed seals. The continuous high pressure (3.0 bar) guarantees a flawless spray output which can be adjusted to your needs with the adjustable and durable, brass spray nozzle. The fluid level is readable from the outside, and the bottle can be stably placed on any flat surface, due to its flat base.

Comes with a unique coding system: Distinguishing between different types of liquid content in your work space can be challenging. A good system to code your spray bottles is a must to keep your inventory organised. The Colad Pump Spray System allows you to easily identify between different fluids, using colour-coded rings. Log your code on the Colour Identification Chart to maintain control of your sorting.

Notice: Only use the Colad Pump Sprayer Ultimate - Solvent in combination with solvent based chemicals that appear in the Chemical resistance list which can be found here.

### Features:

- Efficient and ergonomic handle and pump
- Pressure relief and safety valve
- Inclined, durable spray nozzle to reach difficult places
- Scale in litres and fluid ounces
- Extra long warranty

### Benefits:

- Lock button to prevent accidental spraying
- Continuous spray output to work consistently
- Adjustable output to fine-tune the spray pattern to fit your needs
- Easy distinction and identification of fluids with the help of the coloured coding rings
- Designed with superior, highly solvent seals, resistant to water- and solvent-based degreasers
- See-through to easily identify the fluid level
- Solid standing due to the additional foot ring

Warning: The Colad Pump Sprayer Ultimate - Solvent is not compatible to use with acid based wheel rim cleaners.

Storage advise: To make sure your pump sprayer won't leak when used and stored, do as follows:

Make sure the nozzle and front of the pump are screwed on tightly. Point the nozzle of the pump upwards when storing it away.

## Packaging information

Set of a Pump Sprayer, 6 coding rings and one colour identification chart per box / 105 boxes on a pallet.

## Technical information

- Colour: Milky transparent
- Content: 1000 ml / 33.8 fl. oz.
- Material: Bottle - HDPE (= High-density polyethylene) / Pump head - PA (= Polyamide)
- Size: 110 mm x 280 mm
- Weight: 430 g

## Frequently Asked Questions

### > **How do I prepare properly before usage?**

Check before use that all parts are undamaged and working correctly. Unscrew the pump from the bottle. Fill the bottle with the desired liquid up to the 'max' level. Screw the pump head on and tighten it so that the bottle is sealed and airtight (if it is not, it will be impossible for pressure to build up).

### > **How do I use the Pump Sprayer Ultimate - Solvent?**

Pump air into the tank using the piston. Press the spray button to spray. By turning the spray nozzle, you can set the desired spray pattern (mist    jet). Use the continuous spray function when you need to apply liquid on a bigger surface. Use the adjustable nozzle when you would like to use the pump at a maximum angle of 180 degrees. Use the pressure release button before screwing the pump from the bottle.

### > **What kind of liquids can I use with the Pump Sprayer Ultimate - Solvent?**

The Pump Sprayer Ultimate - Solvent is highly resistant to nearly all water- and solvent-based degreasers, due to the specially designed seals. Please check out the resistance list of chemical materials to ensure that your desired liquid can be used in combination with this pump sprayer.

### > **Why is the Pump Sprayer Ultimate - Solvent unique?**

The Pump Sprayer Ultimate - Solvent is highly resistant to nearly all water- and solvent-based degreasers, due to the specially designed seals. It uses a unique coding system with coloured rings to easily distinguish the different types of liquid content.
