

For an accurate color check and defects detection.

# Check Light 2.0

## Versatile work light

**The Colad Check Light 2.0 with CCT scan and light diffuser increases the quality of your work! It simulates all lighting conditions, is equipped with stepless dimming for an accurate color match and detects the smallest defects in no time.**

Using a hand-held working light has never been easier. The Colad Check Light 2.0 guarantees a clear and natural view of any job, wherever you are. It is designed to perform an accurate colour check on a car or on a spray sample, and it avoids costly repainting in the event of colour mismatches caused by inadequate shop lighting. The lamp allows you to detect the smallest defects, bumps and scratches in no time, and its lightweight and ergonomic grip make the Colad Check Light 2.0 easy to use.

### Benefits:

- Elude inadequate shop lighting with stepless light intensities and CCT-scan for an accurate colour match
- Detects the smallest defects, bumps and scratches
- Always at hand, no interruptions needed for recharging with its excellent long-lasting power
- Can be used and placed anywhere

**"Match colours and detect scratches fast and easy!"**

**Order your Check Light 2.0 now! Contact [sales@emm.com](mailto:sales@emm.com) or your local Colad dealer."**

 **Accurate color check**

 **Easy pocket clip**
