

Colad Ultimate Masking Film

This Masking Film is ideal for quick and efficient covering of a vehicle and protecta it against overspray, dirt and dust. Colad Breathable and Moist absorbing Spraymask with paint adhesion - primer and/or paint adheres permanently to the film. This film is supplied with micro holes which gives the spraymask "breathing" capabilities and because of the use of a calcium layer additional moist absorption is provided. Moist will evaporate from below the foil after application. Therefore this film is ready to use on a humid object and prevents "Ghost stains". This film has static properties, is easy to cut with a Colad Foil Knife and can be used with infrared drying (max. 120°C). By using the Colad Foil Dispenser covering can be done by one person.

The benefits of Colad Breathable Spraymask:

- Breathing capacity which allows moist underneath the foil to evaporate. This prevents 'ghost stains' and saves you polishing afterwards
- Special 'ingredient' that allows moist-absorption, in addition to breathing capabilities
- Static properties that help to ensure the film clings to the surface
- Can be used with infrared drying (max 120°C)
- In a box with dispenser functionality

Packaging information

Per roll in a box, the box can be used as a dispenser

Technical information

- Form: Film on a roll
- Material: HDPE, with calcium addition
- Color: Transparent blue
- Film thickness: 12 micron
- Film width x length: 4 meter x 150 meter; 6 meter x 100 meter
- Properties: Static - the film 'clings' to the surface, Specially treated for optimal paint adhesion, Breathing capabilities, Moist absorbing, Can be used with infrared drying (max. 120°C).
- Packaging: Per roll in a carton box. Carton box can be used as a dispenser.

Article number: 6375xx

Description: Ultimate Masking Film

| Art no. | Variant | EAN |
|---------|-------------|---------------|
| 6375 | 4 m x 150 m | 8714247035658 |
| 6375-6 | 6 m x 100 m | 8714247035139 |

Frequently Asked Questions

> **Does this masking film has paint adhesion?**

Colad Breathable Spraymask has static properties that give the masking film paint adhesion capabilities.

> **What are the benefits of a breathable masking film?**

Colad Breathable Spraymask has "breathing" capabilities thanks to micro holes. This allows moist to evaporate from underneath the film. This makes the breathable masking film suitable for use on humid objects and prevents 'ghost stains'.
