Description: Cleaning Fluid HR 1000

EAN: 8714247017180

Hamach Cleaning Fluid HR 1000

A very active cleaner only made with biodegradable products. The HR 1000 Cleaning Fluid is a fast working product, very active and only made of biodegradable products. Suitable for cleaning polyester mastic, two-component polyurethanes, water-based and solventbased paints, clear coat as well as various kinds of adhesives from spreaders, rules, etc. Environmentally friendly, does not produce vapours. 10 L can. Not suitable for cleaning spray guns.

The benefits of the HR 1000 cleaning fluid:

- Suitable for spraying, dipping and brushing in the automotive pre-processing.
- Origin of biodegradable ingredients
- Creates no additional ATEX zone
- Fast working
- High flash point and low vapour pressure
- Mild odor

Technical specifications of the cleaning fluid:

- 100% silicone free
- Non flammable vapours
- Liquid

Packaging information

Per can of 10 liter

Pro Planet Proof

These cans are made from r-HDPE which consists out of 100% post-consumer recycled plastic. This waste plastic is collected, sorted, cleaned and re-granulated. This granulate is used to make new products like these cans. All cans contain a resin identification code on the bottom indicating r-HDPE and the possibility to recycle these cans again after use.

Frequently Asked Questions

> **Where can I use the Cleaning Fluid for?**

This cleaning product is developed for safe, fast and environmental friendly removal of polyester mastic, two-component polyurethanes, water-based and solvent-based paints, clear coatings and all kinds of glue from putty spreaders, rules and small components. It can not be used for cleaning spray guns.

> **Where can I use the Cleaning Fluid?**

You can use the cleaning fluid in the mixing rooms. Because of the high flash point the product is also usable outside the mixing room e.g. in the automotive pre-processing department, without any extra safety measures. No flammable vapours are released, therefore there is no additional Atex zone and the HR 1000 Cleaning Fluid can be used everywhere!

> **What's the lifetime of the Cleaning Fluid?**

It barely evaporates and can be used for a long period of time. When the product is completely saturated with e.g. putty residue, strain it with a paint strainer. The product then can be re-used again. The product has a up to 10 times longer lifetime then cleaning with solvents.
