

THE THREAT IS HARD TO IGNORE

The background of the entire page is a dark, atmospheric photograph of a room. In the center, there is a doorway with a thin, metallic-looking frame. To the right of the doorway, on the wall, is a large, dark, stylized arrow pointing downwards. The lighting is low, with a subtle glow coming from the doorway and the floor.

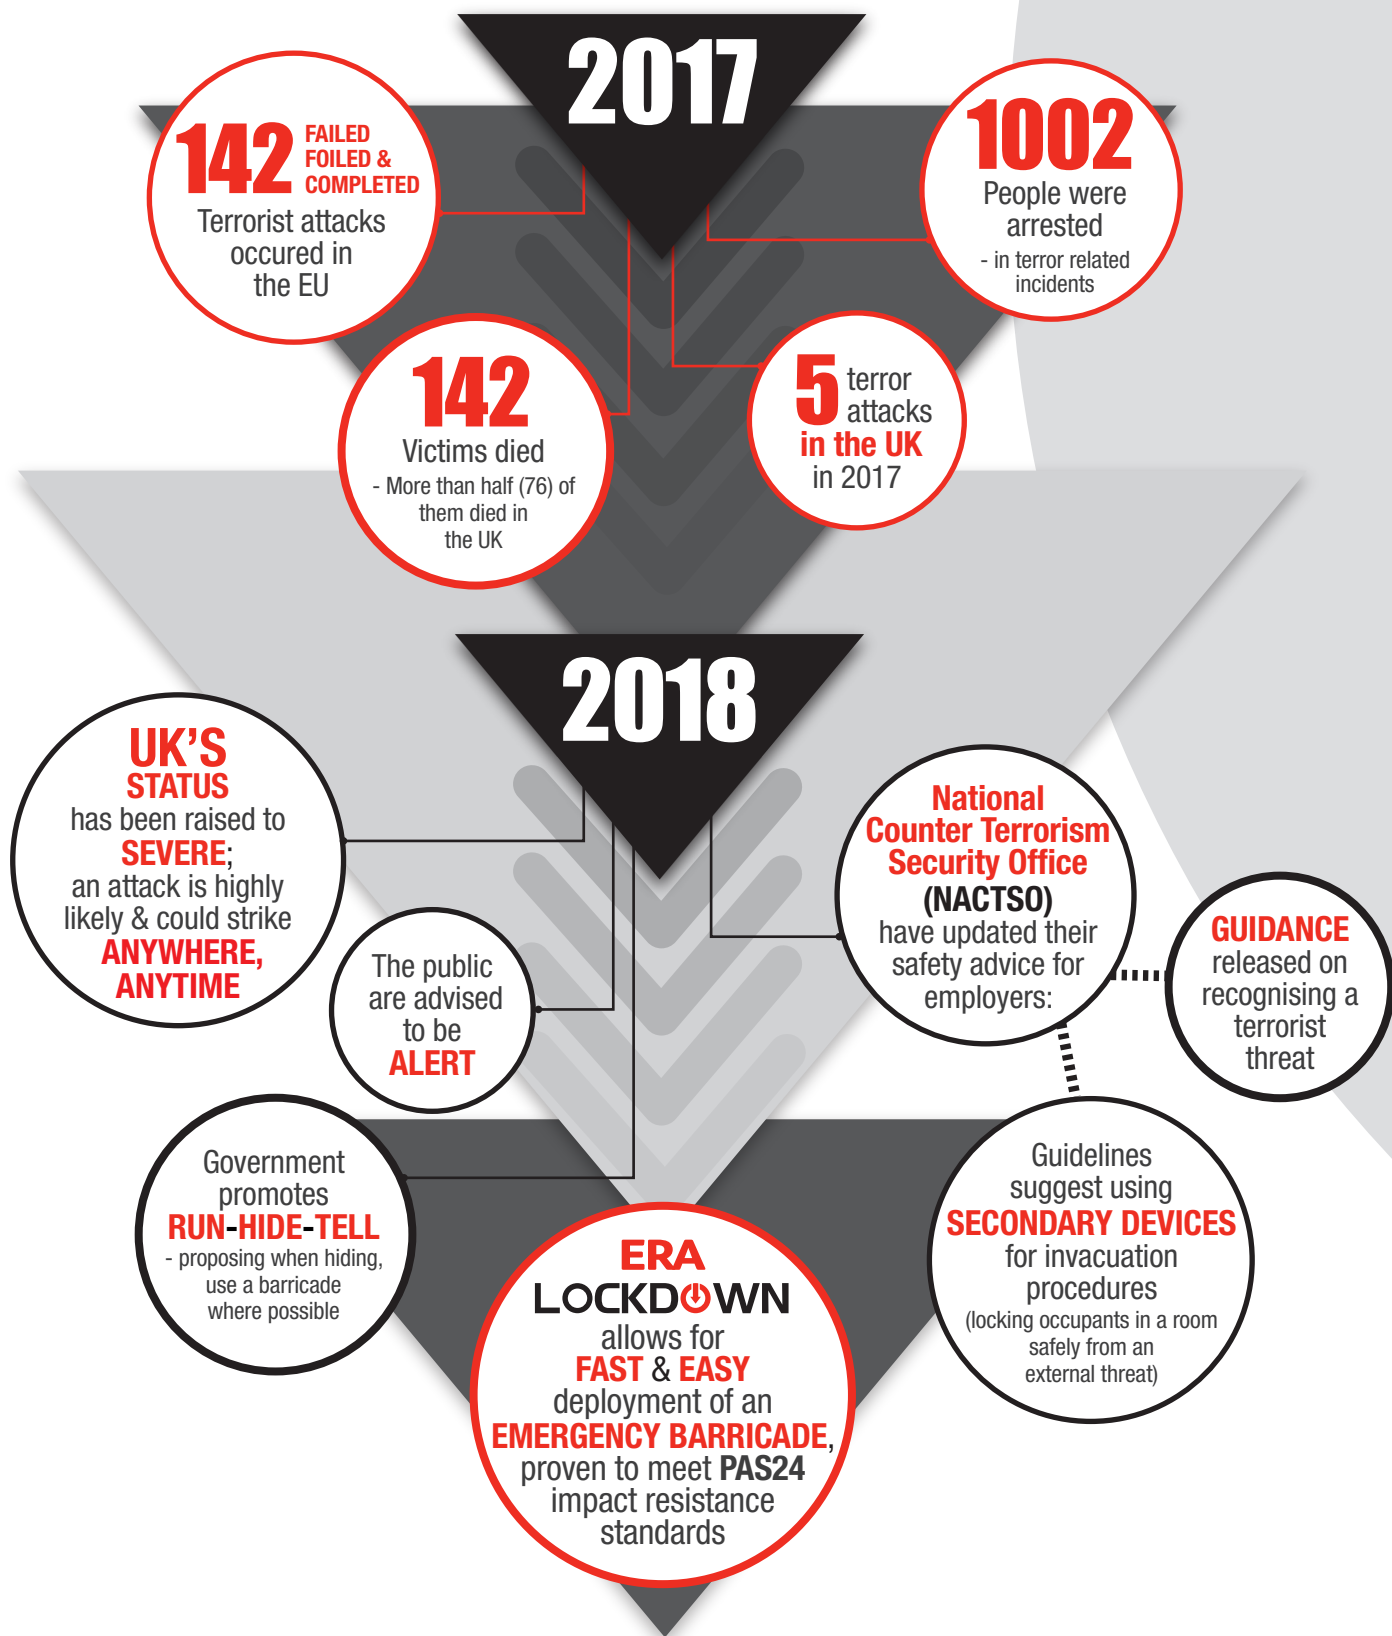

LOCKDOWN

EMERGENCY BARRICADE DEVICE

ERA

WHY LOCKDOWN?

It's frightening to think we need a product like Lockdown in today's society but when you look at the statistics, the threat is hard to ignore.

WHAT IS LOCKDOWN?

The ERA Lockdown is a freestanding security barricade device that can be deployed in an emergency situation in seconds, keeping occupants safe inside and the threat out.

It works completely independently, so a room without locks can still be secured.

Lockdown is also ideal as a secondary solution to lock a door at speed, buying time - locating keys and locking a door isn't necessarily an easy task in an emergency situation.

Eivind Mangset, Department of Product Design at the Norwegian University of Science and Technology, established through research that motor skills, judgement and overall performance are compromised in a high stress, time pressured situation.

EMERGENCY BARRICADE DEVICE

- ▶ **FAST & EASY TO DEPLOY**
