

Keep track of all important keys.

M10 : 10 key system including

- 10 numbered white retaining pegs
- 10 matching numbered port stickers
- 5 different coloured blank access pegs
- 12 flat wire anti-tamper key seals
- 1 seal cutter

Instructions for adding your keys on to Keytracker:

1. Allocate a white retaining peg from the system.
2. Remove all key rings from the keys.
3. Push the seal through the key heads and white retaining peg before closing firmly.

Instructions for accessing keys:

1. Allocate coloured access pegs to authorised individuals & record on chart
2. Insert your access peg in the hole next to the required keys and turn to the left to release.
3. Your peg is now held in place until the keys are returned.
4. Return the keys as soon as finished with, to regain your access peg.
