

# Codehandle

E1200

Codehandle Set

ASSA ABLOY

## Application:

- For simple, effective key-less locking/unlocking of interior doors in all light commercial and residential environments where the convenience of access control is the main priority
- Ideal solution for most restricted access areas, private offices, storerooms, cupboards, etc
- In aesthetic environments Codehandle is a more attractive, compact option to bulky keypads
- Easy to fit - no wires, cables, drilling or special fitting required
- Door thickness 42-80mm

## Specification:

- 9 user codes and 1 master code - limitless changes are possible
- 2 x CR2, 3V lithium batteries
- Entering an incorrect code 5 times blocks handle for 3 minutes
- Manual or automatic locking
- Low battery indicator
- Visual and acoustic feedback
- Supplied as lever handle set c/w roses, spindle, fixings and instructions
- To facilitate mechanical override, this product must be used with a DIN standard lock with cylinder to latch functionality, eg UNION 2C25 nightlatch or 2C21 sashlock
- Also available as e-Locking packs, with or without cylinder
- Lock supplied with square forend (round forend lock available upon request)

## Finish:

- Satin Stainless Steel with Satin Chrome Trim

## Technical Design:

## Standards:

- EN 55022 Class B
- EN 61000-4-2, 4-3, 4-8
- EN 61000-6-2, 6-3
- Included in a successful fire test to EN 1634-1
