

Fullex Crimebeater 220 is engineered to provide long term reliability and security, as well as being unbeatable on price.

The Fullex Crimebeater 220 Pro is an inline split spindle lock, meaning the external handle can operate the locking mechanism, but will not withdraw the latch without the door cylinder key. The lock is compatible with either long or short back plate handles, creating a flexible and highly secure multipoint lock.

Crimebeater 220 is tested to PAS 24 standard in a UKAS accredited laboratory and licensed by the Police approved body Secured by Design.

PAS 24 tested

2 opposing steel hooks, deadbolt and latch

Inline split spindle

Easily reversible latch as standard

Latch hold back snib on lock faceplate included as standard

Various adjustable security keep sets available

For use with composite and timber doors

Technical Data

Corrosion Resistance

BSEN1670 Grade 4 (240 hours)

Cyclic Operation

Cycle tested to 50,000 cycles

Materials

Top and Bottom Hook

#45 carbon steel

Deadbolt

220 grade stainless steel

Faceplate

Mild steel, zinc and clear passivated

Gearbox

A3 mild steel zinc and clear passivated

For maximum security the Crimebeater 220 can be used with the Kinetica 3 star BSI Kitemarked TS007 cylinder.

The Crimebeater 220 Pro has 2 hardened steel hooks with 54mm top and bottom hook cases, allowing for reduced routing. The hooks are opposing which makes lifting them out more difficult - providing additional security. The centre has a deadbolt and comes with a reversible latch with snib.

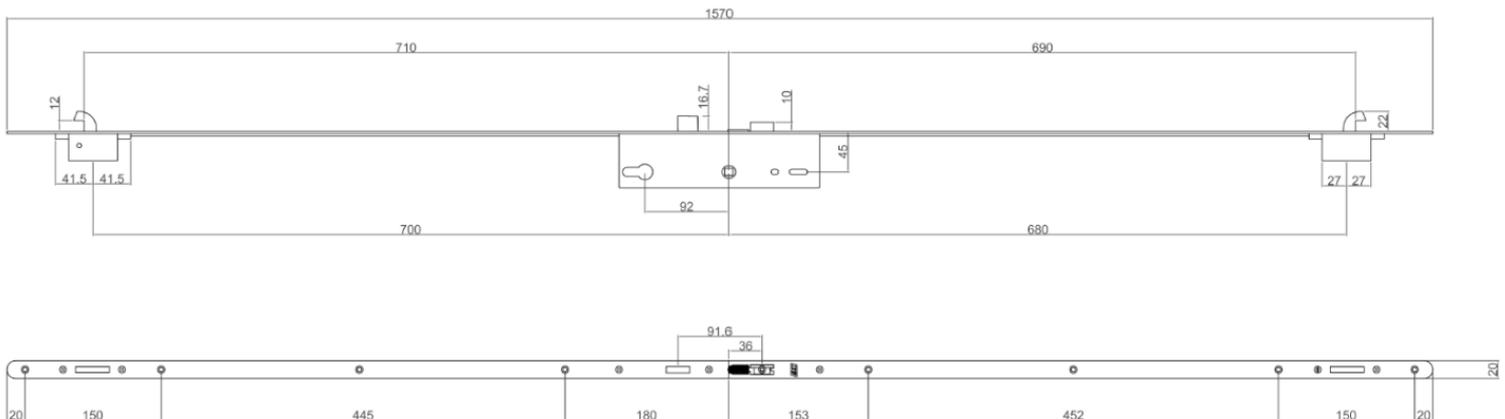

Faceplate = 1570mm x 20mm (Stainless Steel):

PAS 24 and Secured by Design - For Composite and Timber Doors

Product Code	Spindle	Backset Size	Handle Backplate	Handle Centres	No of Hooks	Hook Direction	No of Deadbolts	No of Rollers	No of Mushrooms
