

Connect and Control.

MORE CONTROL. MORE CONVENIENCE.

With improvements in the performance and capability of our access control products, Codelocks electronic range of locks now offer advanced programming capabilities and access methods. Utilising technology to program locks via your smartphone, generate and send codes for easy access, issue smart cards for alternative entry.
Track and control with audit trail.

The NEW K3 range consists of the CL4500, CL5500 and CL6500 (US) locks. The locks can be managed directly via a compatible smartphone by downloading the K3 Connect App. Multiple access methods are available including codes, MIFARE® cards and invited phones. Advanced features include scheduled Code Free access, client scheduled access periods and audit trail.

KEY FEATURES

- Personal wireless connectivity for management
- Audit Trail
- 100 Client User Codes
- 150 Client Smart Cards
- 100 Phone Clients
- Date/Time Sensitive NetCode
- Suspend & Restore any or all clients

AUDIT TRAIL

[Download and view the lock audit trail.](#)

GUESTCODE

[Simple access control for guest houses and B&B.](#)

MIFARE COMPATIBLE

[Use MIFARE® Classic, MIFARE® Desfire® & MIFARE Ultralite® cards, fobs and wristbands.](#)

NETCODE

[Create codes with a specific start date & time and that automatically expire after a set duration.](#)

UNLOCK VIA PHONE

[Send authorisation invitations to remote users via their smartphone.](#)

Code, Card & Phone

Allow clients access via a simple code, allocate and register a MIFARE® compatible Card, fob or wristband or send an invitation to their phone. The K3 range of locks provides flexibility and convenience by providing a range of access methods allowing you to choose the most suitable method for your application.

Stay in Control

With the K3 App installed on a compatible smartphone, control over your lock has never been so convenient. Manage all aspects of your lock from basic settings through to multiple individual access periods for each client from your smartphone. The K3 App keeps you in control.

Controlled Code Free

Reduce the administration burden of manually putting locks into code free mode. Create up to 10 different code free periods that automatically enable only when scheduled.

KEY FEATURES

- The locks use the same fixings and installation as the current CL4000,5000 and 6000 (US) locks.
- Tamper time out and low battery warning
- Backlit keypad with indication of locked and unlocked status
- Mortice Lock
- Mortice Latch
- Back to Back options
- Connections for remote release by reception desk button
- Alarm release included
- Two year guarantee
