## Video Surveillance Made Easy!

The digital wireless monitoring system simply and reliably protects domestic and commercial properties day and night. Complete with all required accessories to open the box and install quickly and easily. The set can also be expanded to a total of 4 cameras. Once installed motion detectors reliably identify movement which triggers an alarm notification sent to your mobile tablet or device. Using the app you can view the video images of up to four cameras simultaneously. The free app is available on Google Play Store or Apple App Store.

## Day/Night Infrared Wireless Outdoor Camera

For expansion of digital wireless monitoring kit.

Part Number: TVAC18010

Robust weatherproof outdoor camera (IP66)

VGA resolution and infrared night vision function

Integrated, professional motion detection (PIR) sensor with alarm function
