

High Security Cam Locks & Keeps

Features

- High security**
 Engineered for strength to offer premium security for vertical sliding windows. The combination of six fixing points, a stainless steel keep faceplate and a forged cam give increased resistance to physical attacks. Can also be fitted with a standard perfectly matching keep if security not required
- Stylish design**
 Sits discreetly on the window with a choice of lever style – Classic, Heritage or Architectural
- Perfectly Matching**
 Each lever design has a corresponding bottom Sash Knob for that Classic, Heritage or Architectural window design
- Colour coordinated screws**
 Perfectly match to the Cam Lock, even down to the small details and available in the complete range of Hardex finishes
- Designed for PVCu, Timber and Aluminium sliding windows**
 To suit all window materials, we have a range of different keeps to suit specific profiles
- Tried and Tested**
 Tested in our UKAS test facility to meet the requirement of Secured by Design on a number of window systems including Spectus, Veka, Rehau and Eurocell. A range of system specific accessories designed to achieve PAS 24:2012 are also available including Chimneys, Aluminium Security Strips and Guide Catches
- Guaranteed**
 The high security packaged is supported by the ERA Five Star Guarantee for homeowners giving them peace of mind
