

Solid Brass Padlock

Features

- Brass lock case with Molybdenum hardened shackle
- Molybdenum stainless steel used in the manufacture of missiles, air crafts and within the power industry, gives the padlocks a smooth surface finish and enhanced corrosion resistance
- Hardened steel shackle, protects it from sawing and cutting
- Anti Bump, Anti Pick and Anti Drill brass cylinder protection
- Double lever locking mechanism with two hardened steel pins
- Shackle is sealed for enhanced weather protection
- Available in three sizes:
 - 40mm - standard and long shackle
 - 40mm twin pack - standard shackle, keyed alike
 - 50mm - standard shackle
 - 60mm - standard shackle
- For cupboards, tool boxes, lockers, bicycles and other applications
- Easy to understand visual ERA security rating system. Number within the padlock symbol indicates the security rating and the chart demonstrates how the products security rating compares to other products within the range
- Allows consumers to purchase products at the most appropriate security level for the application
- Available clam packed for easy merchandising
