

Overview

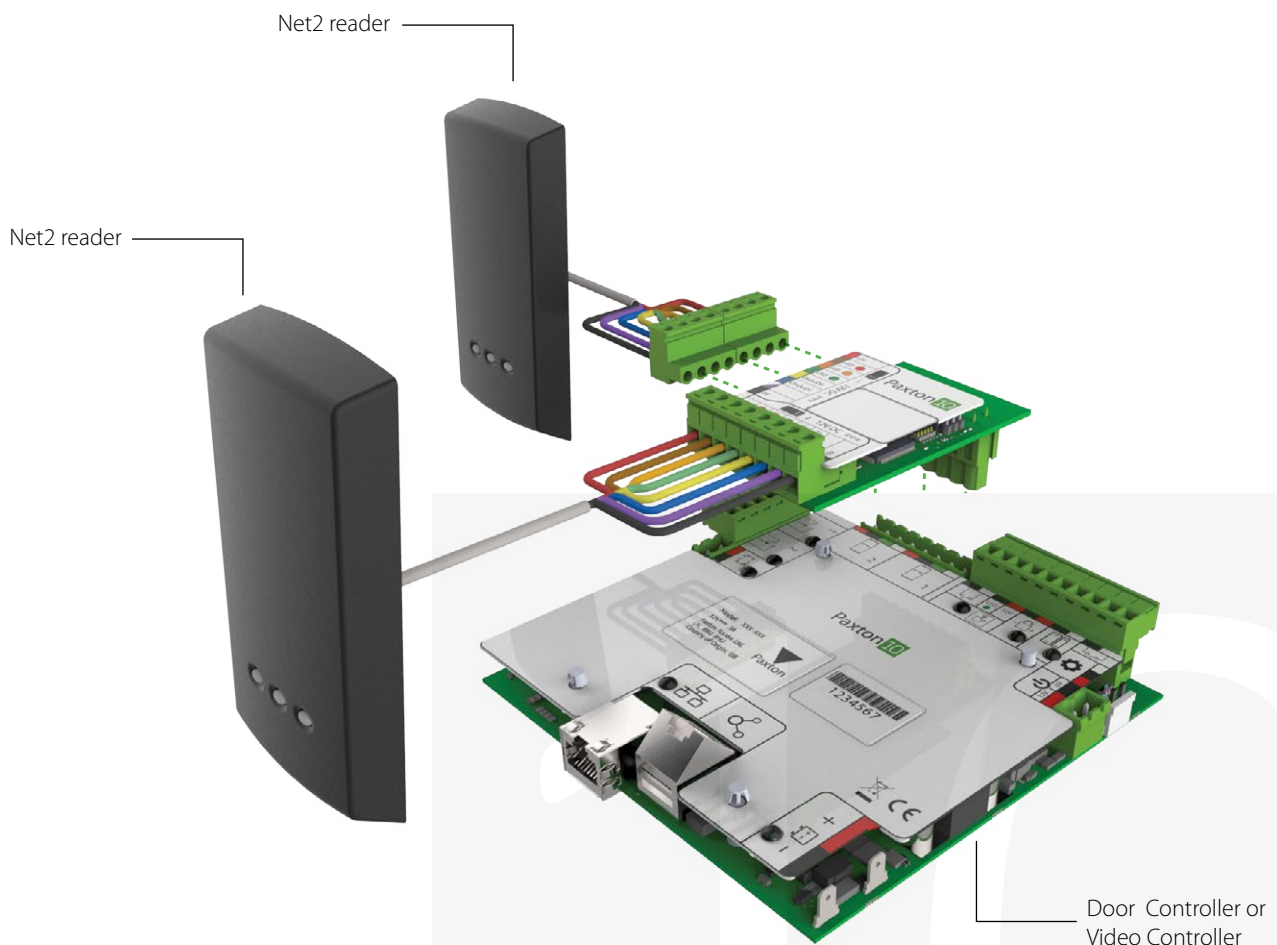

The simple to install Paxton10 Reader Converter will allow for an easy upgrade path between Net2 and Paxton10, enabling the existing Net2 readers to be used with a Paxton10 system.

The Converter also allows the use of third-party Clock and Data, and Wiegand Readers/Keypads with the Paxton10 Door Controller or Paxton10 Video Controller.

Features

- Adds support of Paxton Net2 Readers, Proximity, Keypad and Keypad Proximity
- Adds support for Third Party Clock and Data Readers
- Adds support for Wiegand Readers and Keypads (coming soon)
- Simple installation to either a Paxton10 Door Controller or Paxton10 Video Controller
