

MARATHON

For sliding wooden and metal doors weighing up to 55kg and 90kg

When it comes to residential or commercial sliding doors and partitions, Marathon sliding door hardware is in a class of its own. Designed for wooden, wood framed and composite doors and featuring a one piece ball cage design, Marathon offers a smooth running system which can easily be adjusted. A fire door kit and self closing door kit can also be added to further complement the system (see accessories).

Available as the Marathon 55 for doors up to 55kg and Marathon 90 for doors up to 90kg, it can handle door thicknesses of between 35 - 50mm and door widths of up to 2500mm.
