

POSTSAFE Anti-Arson Mailboxes

SURE

Overview

SURE 'POSTSAFE' Anti-Arson Mailboxes.

- Cost effective solution for arson
- Protection against all kinds of hate crime
- Used in domestic violence 'safe-houses'
- Available in a range of sizes
- Very affordable replacement extinguishers
- Easy to install (Outside wall MSWM)

POSTSAFE - Anti-Arson Mailboxes

Key Features and Benefits

Protect your home or business with 'Postsafe' the anti-arson mail box. Arsonists attack more than 28,000 buildings each year in the UK and according to Home Office Statistics, that number is rising. The letter box is the one part of every building that is always open.

The Warrington Fire Research Centres (WFRC) official test concluded that our Mail Boxes will successfully contain an arson attack and will provide significant protection against a serious fire developing.

Constructed from metal with a built in Pyroflex FE-25 tube fire extinguisher that automatically activates in the event of fire, extinguishing it before it spreads, saving property and lives. Also protects from other frequently occurring acts of vandalism including insertion of fireworks, rubbish, animal faeces and urination through letter box.

The FE-25 fire extinguisher gas is heavier than air so once activated, the gas remains within the Postsafe thus preventing re-ignition.

The 'Postsafe' anti-arson mailbox accommodates all normal mail and newspapers and is available in four different models: Chubby, Slimline, Jumbo and the MSWM (Wall mounted).

How Postsafe Works:

- Sealed unit holds the flammable material, including liquids, preventing the fire from spreading
- Neoprene seal ensures that the Postsafe is air tight, starving the fire of oxygen, thus extinguishing it
- If the fire persists, the automatic fire extinguisher will discharge at 57 °C, putting the fire out
- Heavier than air, the gas from the fire extinguisher remains within the Postsafe preventing re-ignition

Product Design

Specification

Feature / Function	Value / Data
Chubby (MSC150)	
Locking mechanism	Lift up slam latch
Dimensions	326 x 360 x 156 mm (W/H/D)
Weight	4.2 Kg
Slimline (MSSL90)	
Locking mechanism	Drop down lockable door (2 keys provided)
Dimensions	330 x 510 x 100 mm (W/H/D)
Weight	4.7 Kg
Jumbo (MSJ200)	
Locking mechanism	Drop down lockable door (2 keys provided)
Dimensions	320 x 640 x 200 mm (W/H/D)
Weight	6 Kg
MSWM	
Locking mechanism	Lift up latch with lockable door
Dimensions	370 x 330 x 155 mm (W/H/D)
Weight	3.4 Kg
Spare Extinguishers	
Chubby (MSC150TUBE)	Pyroflex FE-25 Tube (0.5m)
Slimline (MSSL90TUBE)	Pyroflex FE-25 Tube (0.4m)
Jumbo (MSJ200-TUBE)	Pyroflex FE-25 Tube (0.75m)
