

Screen Protector Tempered iPhone 7/6/6S

DESCRIPTION

Protection norm

The IK standard defines the protection degree against external mechanical shocks. It is normed according to NF EN 62262 (NF C 20-015). The IK06 grade announces a resistance to a 1 joule impact energy (equivalent to the fall of a 250gr body from a height of 40cm).

Bubble free

These protections are really easy to set with their bubble free technology which avoid the unpleasant and difficult moment of applying the screen protector. If any small bubbles appear during the set-up, they will automatically disappear within 24h.

Electrostatic absorption

The static load facilitates dust and dirt adherence on all kinds of screens. It disorders your use and reduces the lifetime of your devices. Electrostatic absorption technology eliminates static disagreements.

Hardness anti-scratch

9H is the hardest grade (behind diamond which is 10H) on a scale defining the resistance to touch, pressure, shear, chafing and shock. Therefore, 9H is the best protection degree that exists for screens.

Anti-glare

The anti-glare power prevents the sun and lights reflection on screens, allowing users to check their devices in very luminous places without being constrained by light glints.

Blue LightCut Finish

The Blue Light attacks your eyes during all day : computers, tablets, smartphones, TV... The Blue Light Cut Filter keeps your eyes safe from bad eyestrain.

Anti-fingerprints

Even with regular cleaning, the fingerprints and the runs of fingers slips are always apparent on your smartphones and tablets touchscreens. Thanks to the anti-fingerprints effect, a matte finish prevents you against these unpleasantness.

Oleophobic

Dont be affraid any more of coffee drip, food spot or dust traces. With their matte finish, the anti-stain screen protectors dont let any mark stain your screen.

Privacy Filter

With his 60° clear visibility, the privacy filter protects you against curious or prying eyes.

TECHNICAL CHARACTERISTICS

Brand : MOBILIS

Part number : 016611

Caractéristiques :

Protector type : Clear screen protector

Brand compatibility : Apple

Bubble-free application : Y

Cleaning cloth : Y

Cleaning kit : Y

Compatibility : iPhone 6/6S/7

Device type : Mobile phone/Smartphone

Easy to apply : Y

Electrostatic adsorption : Y

Hardness : 9H

Material : Glass

Material thickness : 0.33 mm

Maximum screen size : 11.9 cm (4.7»)

Product colour : Transparent

Protection features : Shock resistant

Quantity per pack : 1 pc(s)

Rounded edges : Y

Shockproof : Y

Smoothing card : Y
