

DESCRIPTION

The AeroPTZ is an environmentally rugged camera designed to meet extreme weather conditions. Using the latest aerodynamic technology and salt-air corrosion resistant glass ber body, the AeroPTZ can withstand the beating from tropical storms, extreme hot and cold temperatures, and gale-force winds.

Additionally, a unique i-PRO Video Stability Augment System (SAS) delivers superior, high-class hybrid image stabilization for extreme scenes with vibration. Making the AeroPTZ well-suited for ports, cities, highway, transit, airports and other outdoor mission critical environments where failure is not an option
