

DESCRIPTION

Articulated Array® speaker configuration provides wider 160° horizontal coverage and weather-resistant components allow use in outdoor applications. Designed to provide outstanding vocal intelligibility in acoustically demanding spaces. Slim column enclosure blends with almost any décor.

TECHNICAL CHARACTERISTICS

Brand : BOSE
Part number : 317302-0100
Connectivity technology : Wired
Depth : 139 mm
Frequency range : 58 - 16000 Hz
Height : 985 mm
Impedance : 8
Number of drivers : 12
Product colour : Black
RMS rated power : 150 W
Sensitivity : 87 dB
Tweeter diameter (imperial) : 5.71 cm (2.25»)
Width : 104 mm
