

DESCRIPTION

Built for zone-fill coverage or high-SPL foreground music, Bose ArenaMatch Utility loudspeakers offer similar tonal balance to ArenaMatch array modules but in compact designs. They have the same EMB2S compression driver as ArenaMatch arrays, ensuring consistent sound, and the same IP55 weather rating. Deploy them for zone-fill coverage in sports stadiums, arenas, outdoor entertainment centers, and more. Or use them to provide intelligible, high-level sound in any outdoor area from niche venues such as breweries and fairgrounds to larger settings like resorts and outdoor shopping centers.

The AMU108 is a small-format ArenaMatch Utility model for outdoor applications that require excellent audio from compact loudspeaker. It provides wide, even coverage with a 90° x 60° constant-directivity high-frequency horn, 80 Hz - 16 kHz frequency response, 121 dB peak SPL, and supports the lowest vocal ranges with a Bose LF8 8-inch woofer.

TECHNICAL CHARACTERISTICS

Brand : BOSE

Part number : 811434-0210

Haut-parleurs :

Woofer : Y

Crossover frequency : 1400 Hz

Depth : 279 mm

Frequency range : 80 - 16000 Hz

Height : 235 mm

Housing material : Plywood

Impedance : 8

Mounting brackets included : Y

Number of drivers : 1

Number of woofer drivers : 1

Package type : Box

Package weight : 14.2 kg

Peak Music Power Output (PMPO) : 800 W

Product colour : White

Quantity per pack : 1 pc(s)

RMS rated power : 200 W

Sensitivity : 91 dB
Speaker placement : Ceiling-mountable, Wall-mountable
Suitable for outdoor use : Y
Weight : 10.6 kg
Width : 470 mm
Woofer diameter (imperial) : 20.3 cm (8»)
