

DEXLAN RJ to Jack Multimedia Headset Phone Adapter

DESCRIPTION

The DEXLAN RJ-12 phone adapter allows the connection of a multimedia headset with 3.5-mm jack to a telephone set, in place of the original handset.

The RJ-12 jack is the indispensable accessory for hotline agents or any user wishing to use a comfortable headset with microphone with his telephone at an affordable price.

Product benefits:

- 2 x 3.5-mm female jack plugs for microphone and earphones
- 1 x RJ-9 plug for telephone connection
- Cable length: 10 cm
