

DESCRIPTION

These MOBILIS®-designed privacy filters keep your onscreen data away from prying eyes. This accessory is ideal for working in public places, on public transport or even in an open-plan office because you can only see your data when sat directly in front of the screen. Those on either side of you can only see a black screen. Thanks to these filters, which are compatible with all LCD or laptop screens, you can use your IT equipment with complete peace of mind. They are also compatible with touchscreens. To meet your specific needs, there are two types of installation available: for screens with bezel (installation using hanger arms) or screens without bezel (installation using adhesive strips). For the best possible usability, this privacy filter also includes a matt anti-glare finish.

TECHNICAL CHARACTERISTICS

Brand : MOBILIS
Part number : 016419
Design :
Type : Frameless display privacy filter
